EDICT IS ISSUED BY EMPEROR

Many Concessions Made by the Government of Chinese Empire

WOULD NEGOTIATE LOAN

Story of Recapture of Hankow by Imperialists is Discredited at Peking.

Shanghai, China, Oct. 30.—The Imperialists are burning Hankow today according to wireless messages from foreign warships off that city. The accounts say that as soon as the government forces entered the city they began a slaughter of the unarmed non-combatants, hundreds of whom were butchered in their homes

Peking, China, Oct. 30. — The government issued its edict today granting what practically amounts to constitutional rule for China. At the same time it is reported however to be making huge offers to certain foreign governments for aid in upholding the present system of despotism.

The edict provides for a parliament, a revision of the present ineffective constitution, responsibility of the cabinet to parliament instead of to the emperor and curtailment of the emperor's power to appoint considerably less, for example, than that of the president of the United States.

It is not known positively with which foreign government the Manchu rulers are negotiating, but discovery that it has arranged for an $18,000,000 loan from an Anglo-Franco syndicate strongly suggests that it is from England and France it hopes much

Confirmation of the Imperialist recapture of Hankow is still lacking and today the story is generally disbelieved here. Foreign warships are reported to have landed more marines and white residents are considered in considerable danger.

In the case of England and France the changed situation means merely changes in the financial groups interested. Politically the Anglo-French combination will get a tighter grip on China than ever if the loan arrangement is permitted to stand. In diplomatic circles here and Berlin governments are expected to be highly dissatisfied The United States in particular, is considered to have been almost ridiculously out manoeuvered inasmuch as it was understood to be counting on taking a very important part in settling Chinese affairs with England as its strongest supporter

Probabilities are however that either the governments offer to the revolutionists nor the negotiation of the $18,000,000 loan will do much to help checking the rebellion The rebels have already served notice on foreigners that, after the revolution has been accomplished, the new government will repudiate the old one's obligations

General Yin Chang, who was reported several days ago to have been killed and subsequently to have affected the recapture of Hankow, is now understood to be ready for flight at a moment's notice Dr Jackson and A H. Kepler, the two American reported shot in the fighting there are said not to have been seriously wounded.

Both Dr. Jackson and the Rev. A. Kepler were hit by stray bullets Kepler is attached to the American Presbyterian mission at Hankow.

An outbreak here is considered so threatening that foreign residents are seeking protection of their legations and all of them are under arms in readiness for whatever may develop Statements that the emperor has been spirited away and that Prince Regent Tsai has committed suicide are denied.

BOND BANKRUPTCY CASE.

Cleveland's Oct. 30.—Chas. A. Bond, former mayor of Columbus and another, has been discharged in the federal bankruptcy court.

PRESIDENT SATISFIED WITH TRIP

Chicago, Oct. 30.—Turning his face homeward at the end of 45 days of political joy riding, President Taft today concluded his 'winning of the west." Now that the western swing is at an end but one thing is political certain as a result according to the president's supporters, and that is that the trip has done no harm." The president expressed himself as "well satisfied with the results of the trip he sees them today."

EVEN BREAK IN ELECTIONS OF SATURDAY

Columbus, O., Oct. 30.—Athens county, dry for three years under the operation of the Rose local option law, has joined Scioto and Lawrence counties in returning to its former condition, permitting the sale of liquor within its borders.

At a special election held Saturday, the wets won, with a majority of 1258, completely reversing the dry majority of 1414 of three years ago, The city of Athens, however, which had voted dry under the Beall law, is not affected by Saturday's election, but the triumphant liberal forces have already announced that they will move for a special election in the county seat in the near future.

Meigs County, on the other hand, decided at a similar election, also held Saturday to remain dry, the anti-saloon majority being but 53. The official count is not expected to change the result.

ATHENS WET

Athens, Ohio, Oct. 30.—The wets carried Athens county Saturday in the Rose local option law election, after three years of no saloons, by 1258.

The election throughout the county was orderly, although a bitter campaign through posters, letters and the newspapers had been waged for the past three weeks. The county three years ago went dry by 1414. There was a uniform wet gain all over the gainfi even in the rural districts.

Athens, the seat of the Ohio university, which was dry one year under the Beall law, before the county election three years ago, when the drys carried it by 223, today went dry by only 85, all university students who came to the polls voted.

Chauncey, where a dry mayor has assessed fines in bootlegging cases amounting to $16,000 went dry by 69,

Glouster and Nelsonville, where practically all the bootlegging cases have originated in the past three years, each gave a large wet majority

Nelsonville went dry by 14 three years ago and wet Saturday by 485.

Glouster and Buchtel were the only towns that went wet three years ago, each increasing the wet majority 75 per cent Saturday.

MEIGS DRY.

Pomeroy, O., Oct. 30.—Meigs county remains in the dry column by a majority of 53 votes, against a dry majority of 667 three years ago. A telling fight was waged by the wets and they were greatly encouraged the last two days by the results in Scioto and Lawrence counties but they fell just short of a victory.

Pomeroy and Middleport, the only towns that had saloons when the county went dry three years ago, piled up bg wet majorities—the former 447 against 325 three years ago, but the rural brethren stood by their former verdict and saved the day for the dry adherents.

The contest was very bitter, but there was no disorder at the polls and not an arrest was made throughout the county, to the surprise of those who looked for clashes everywhere.

IN LITTLE WYANDOT

Upper Sandusky, O., Oct. 30.—The option election campaign will close in this county tonight with rallies in every voting precinct. A bitter campaign has been waged in this county for the past month. The Business Men's League of this city has conducted the wet campaign and it is predicted that the liberal forces will carry the county by from four to eight hundred majority. The county was voted dry three years ago by a vote of 53.

TECHNICALITY CAUSED REVERSAL IN LIQOUR CASES

Zanesville, Oct. 30.—A legal technicality over which the circuit court judges were not quite sure themselves caused a reversal of the common pleas court decisions in seven liquor cases Saturday. The question of "jurisdiction" was the prime factor in reversing the cases the members of the circuit maintaining that in violations of the Rose law, all affidavits and warrants should be sworn before the common pleas judge of the district. The warrants and affidavits in the cases reversed were sworn before Clerk of Courts Howard McDonald. However, the victory of the liquor interests is not sincere as the circuit court judges will permit the prosecuting attorney to make a test case before the supreme court and have the question definitely settled.

Pope Pius Honors America by Naming Three Cardinals

WONDERFUL EXPANSION

O. Catholic Church in This Country Was Cause of Pontiff Making Appointments.

Rome, Oct. 30—Nothing but words of praise can be heard here today for the action of Pope Pius in giving the American Catholics three more cardinals.

Messages of congratulations poured in on the Vatican, and Cardinal Merry del Val, Papal Secretary of State, received many.

Americans at Rome, churchmen and laymen alike, see in the move a great honor to the United States.

The distinction conferred upon America is the highest in the history of the church considering that that country until 1908 was still a missionary country in the eyes of the Vatican and under the jurisdiction of the congregation of the propaganda.

Under similar conditions England is the only country that has ever had three Cardinals at one time—Newman, Manning and Howard—whose entrance into the Sacred college was due to their personalities.

In the present instance, it is stated the Pope has decided to elevate three American prelates to the Cardinalate in accordance with his oft repeated assertion that he desired to show his great appreciation for the influence of America and the enlightenment of the Episcopacy there.

The Pope recalled that when he was elected Pontiff the first pilgrimage he received was an American pilgrimage; the first flags waved in St. Peter's for his election and the first he blessed were American. On that occasion he promised Cardinal Gibbons that eventually he would appoint not one, but several American Cardinals.

Roma, the organ of English speaking Catholics, commenting on the consistory, says:

"The United States will have greater reason than other countries for gladness, as it assumes finally in the Senate of the universal church that important place to which it is entitled by reason of the wonderful

POSSE IS AFTER TRAIN WRECKERS

Ft. Worth, Texas, Oct. 30.—A large posse left here today to search for the gang of robbers which pulled up the spikes and removed the rails in front of the Ft Worth and Denver express at Bellevue early today causing a wreck, which resulted in the death of Engineer Cunningham and Fireman Yates and the injury of a score of passengers Cunningham was found buried under his engine. Yates was badly burned and suffered from internal injuries from which he died a short time later. Investigation proved that two of the rails had been removed and several railroad ties chained to the track. A posse was formed and a search for the wreckers started.

JACOB M. DICKINSON WILL FACE FRANCIS L. STETSON IN A BATTLE TO DISSOLVE STEEL CORPORATION

New York, Oct. 30.—Two brilliant legal minds will be pitted against each other when Jacob M. Dickinson and Francis Lynde Stetson find themselves face to face in the government's suit to dissolve the United States Steel corporation, usually called the steel trust. Mr. Dickinson, who has been specially retained by the government in the case, is a native of Mississippi, but a resident of Tennessee. He served as assistant attorney general of the United States in 1895-97 and in 1903 was counsel for the United States before the Alaskan boundary commission. He was general counsel for the Illinois Central railroad from 1901 to 1909, when he became secretary of war in President Taft's cabinet. Mr. Stetson has long been identified with big corporations. He has been general counsel for the Southern railroad, the United States Rubber company, the International Mercantile Marine and the Northern Pacific railroad as well as the steel trust. He is a director in these corporations as well as in several railroad companies.

ATTY-GEN. HOGAN RULES THAT VOTERS MUST WALK TO POLLS OR HIRE OWN CONVEYANCES

Columbus, O., Oct. 30. — A ruling of unusual importance, which will be of vital interest in every county, and, in fact, in every election precinct in the state, construing the new Kimble corrupt practices act, was given by Attorney General Timothy S. Hogan late Saturday afternoon.

In this ruling he holds that it is unlawful for any political committee or candidate for a political office, to hire carriages, wagons, or other vehicles to convey voters to the polls, and that it is also unlawful for an person or party to make any donation or contribution, either by the giving of money or the gratuitous offering of such conveyances, to such purpose.

Inquiries were received by the attorney general from some 50 different political committees throughou the state as to whether or not voters could be transported to the polls either by committees, candidates o others willing to donate money or vehicles for the purpose.

Attorney General Hogan interprets the law to absolutely prohibit anything of the kind. He, however, holds that the law does not prevent a neighbor or a friend from driving a voter to the polls who might be physically incapacitated from going there He points out that the whole purpose of the law is to prevent corruption in elections and is not to prevent any voter from exercising his just rights and privileges.

If the owner of a vehicle should invite another to jump in and ride to the polls with him, that would not be a violation of the corrupt practices act, unless it could be shown that the purpose of the invitation was to influence the vote of the person accepting the same

The attorney general's interpretation of the law contains some pretty finely dramn differentiations as to the meaning of its provisions A too-literal interpretation of the law would make it an offense to drive any person to the polls, no matter what the circumstances, and this the attorney general points out, would not be in harmony with the spirit and harmony of the act, which, he shows, is to stop corruption and not to deprive those who can get to the polls no other way from being driven there in a conveyance

Printed copies of this ruling will be made and sent to every election committee in the state. The request for the ruling was made by Prosecuting Attorney Harry P. Black of Seneca county.

General Hogan quotes from the Kimball law, which says that any person is guilty of a corrupt practice if, directly or indirectly, by himself or through any other person, in connection with, or in respect to any elections, pays, lends or contributes or offers or promises to pay, lend or contribute any money or other valuable consideration for any other purpose than that which is set forth in the law as being a legitimate expense, and which would not tend to be corrupting.

General Hogan finds that the hiring or use of vehicles by committees or candidates, or the donation to them of vehicles by persons to them, comes under the inhibitions set forth by the law.

"It frequently arises," says General Hogan, "that a voter mentally vigorous but physically infirm, must be aided or transported to the polls. I think that no worthy citizen possessing mental vigor need be deprived of the right to vote by reason of lack of transportation. Under the corrupt practices act it seems to me that there is no objection to any man taking a voter of this kind to the polls either upon request of such man or upon the voluntary act of the party affording the transportation. It should appear, however, in fact, and not in form, that such voter is being assisted to the polls without any motive other than to enable him to enjoy his privileges as a citizen.

"If the transportation is afforded by any one because of a desire to procure a vote for either party or for any question as distinguished from any other party or any other question, the offording of the transportation would amount to a contribution. A vigorous upholding of the principles of the corrupt practice act will leave easy the solution of the question of taking to the polls worthy citizens whose desire to go and vote are pure and patriotic."

KIMBLE LAW APPLIES TO ALL THE CANDIDATES

Columbus, Oct 30.—In an opinion handed down to Prosecutor Kline o Coshocton today, Attorney Genera Hogan holds that the Kimble corrupt practices law applies to delegates to the constitutional convention as well as to the other candidates at the coming elecition The attorney general holds that delegates may have but one worker at the polls, that their expenses are limited the same as other candidates and that thes may hire no conveyances to take voters to the polls.

PRETTY GIRLS OFFER KISSES FOR NEW DEPOT

Guthrie, Okla., Oct 30. — C W Kouns, general manager of the eastern lines of the Atchison, Topeka & Santa Fe railway system, was yesterday offered kisses from 20 of Perry, Oklahoma's prettiest girls in exchange for a new depot.

When Mr. Kouns, with other officials of the Santa Fe, who are on an inspection trip, arrived at Perry, nearly all of the city's inhabitants visited the special train. Among the visitors were 20 of the city's handsome young women. They asked for the officer who had to do with the construction of new depots. When Mr. Kouns was introduced the young women promptly made their offer.

Mr. Kouns refused to enter into the trade, but it is understood that would has gone to headquarters recommending a new station for Perry.

ASSEMBLING OF GREAT WAR FLEET

New York, Oct. 30.—At sundown tonight 300 search lights, the most powerful man has made, will flash their rays across the Hudson river, turning night into day and beginning the spectacular display of the greatest war fleet Uncle Sam has ever assembled. It will continue until its reaches its climax, when the yacht. Mayflower with President Taft and Secretary Meyer aboard anchors off Breton Reef and the great fleet receives the order "up anchor and pass in review."

DRYS ENDEAVORED TO PREVENT OPENING OF LAWRENCE SALOONS

Columbus, Oct 30.—When Monday dawned in Lawrence County, one of the counties which voted last week after having been dry for several years, only one man stood in the way of the residents getting a good drink, Attorney Geenral Timothy S. Hogan and he moved.

The drys made one last desperate effort to prevent the saloons from opening this morning Prosecutor Reily and Clerk of the Election Board W. E Massie telegraphed Mr. Hogan and asked him if the election was illegal because votes in some precincts had been tallied in pencil instead of in ink. They wanted an immediate reply While Hogan was delving into his lawbooks at Columbus, saloon keeperss at Ironton and other cities in the county were busy polishing up mirrors behind bars and getting a good stock of glasses and schooners ready for thirsty throats. At 9:40 this morning Hogan got Massie on the long distance telephone and told him that the election was legal. Five minutes later those who had long been denied the right to quench their throats with liquor had their feet on a brass rail.

SUDDEN DEATH OF PULITZER

Proprietor of New York World Died Aboard His Yacht

WAS NATIVE OF HUNGARY

And Came to This Country at Age of 16---Was Leading Figure in American Journalism.

New York, Oct. 30.—The body of Joseph Pulitzer, best known and best beloved of the American newspaper men, proprietor of the New York World and St. Louis Post-Dispatch who died suddenly on board his yacht in Charleston, S. C., harbor yesterday will be brought north today, the train starting from Charleston at 4:40 this afternoon. A flood of letters, telegrams and cablegrams of condolence is still pouring in on members of the family here. They come from men in every walk of life who have known and admired the celebrated journalist. Every newspaper in New York today pays the highest tribute to the personal worth and ability of the dead publisher.

The funeral of Mr. Pulitzer will be held at St. Thomas Episcopal church on Wednesday afternoon and the interment will be held in Woodlawn cemetery.

New York, Oct. 30.—Joseph Pulitzer, proprietor of the New York World, died of heart failure Sunday on board his yacht Liberty in harbor of Charleston, S. C., after an illness of two days. The news was received here in a telegram from his secretary.

Mr. Pulitzer, accompanied by his younger son, Herbert, left New York aboard his yacht Oct. 18, intending to take a leisurely voyage to Jekyl Island, near Brunswick, Ga., where he had a winter home.

Aside from a heavy cold, which prevented him from taking his daily drives in Central Park, Mr. Pulitzer was in his usual health when he left this city. He was taken ill on Friday and the yacht put into Charleston. His illness proving to be serious a telegram was sent to his wife, who left New York for Charleston Saturday, arriving shortly before he died. The body will be brought to New York today, when funeral arrangements will be made.

For more than a quarter of a century Joseph Pulitzer has been one of the leading figures in American journalism. Born in Hungary in 1847, and educated there, he came to this country in 1863, enlisted in the Union army and served as a cavalryman until the end of the war, when he settled in St. Louis, which for many years was to be the scene of his journalistic activities. His early newspaper training was as a reporter and afterward city editor, managing editor and part proprietor of the Westliche Post, edited by Carl Schurz. He bought the St. Louis Dispatch in 1878 and united it with the Post as the Post Dispatch, which under his management became in a few years one of the best known and most widely circulated journals of the section.

Mr. Pulitzer's entry into New York journalism occurred in 1883, when he bought the World, then a paper of small circulation Its circulation and prestige grew rapidly under his general direction. A building to house it, which he erected in 1890 in Park Row, was, until overtopped by the skyscrapers of later years, one of the most striking of New York's office buildings.

Mr. Pulitzer's sight began to fail him in the late eighties, and after a time he became totally blind. Ever since he has been a partial invalid, but up to the last had kept general supervision over his newspaper properties here and in St. Louis and taken pronounced interest in civic affairs. Much of his wealth has been given for educational purposes. He donated $1,000,000 to Columbia College to establish and maintain a college of journalism and established scholarships in that institution for deserving boy graduates of New York public schools.

During his residence in Missouri, Mr. Pulitzer served as a member of the legislature and was a delegate to the Democratic national convention in 1880. He was elected to the Forty-ninth congress from a New York district, but resigned after a few months' service.

Ten Weeks in Bed—Eminent Physicians Failed—Wonderful Recovery.

I wish to inform you of the great benefit I have derived from the use of Swamp Root. I had been a sufferer for more than twenty years from kidney and liver trouble and was almost constantly treated by the most eminent physicians who could only give me temperary relief. I had been in bed ten weeks when I began the use of Swamp Root. Inside of twenty-four hours I could see that I had been greatly benefited. I continued to use Swamp Root until I had used several bottles when I really felt that my old trouble was completely cured and I am positive that any person suffering with kidney or liver trouble can be cured by the use of this preparation.

I am now in the best of health, better than I have been for ten years or more. I do not know how to express myself as strongly as I desire, in favor of Dr. Kilmer's Swamp Root, as I am sure that it saved my life, and that my good health is due entirely to this great remedy. I heartily recommend it to every sufferer and am confident they can be benefited as I have been. It is a pleasure for me, gentlemen, to hand you this recommendation. MRS. H. J. PRIC recommendation.

MRS. H. J. PRICE,
1334 Center St. Portsmouth, Ohio.

Personally appeared before me this 13th day of September, 1909, Mrs H. J. Price, who subscribed the above statement and made oath that the same is true in substance and in fact

MOTOR CYCLE RACES AND FOOTBALL FORCES BASEBALL INTO THE BACK GROUND

Interesting Sporting Events at West Newark Parks Entertains Several Thousand People—Weather Ideal for Both Sports—Races Were Exciting and Football Game Was Entertaining—Another Football Contest Next Sunday.

The "put-put-put" of motorcycles and the blasts from the referee's whistle in the vicinity of Wehrle and Moundbuilders park Sunday afternoon, announced to the sport loving people of Newark that baseball has taken a back seat for the season of 1911.

The big crowds which attended the two poorly advertised events is sufficient proof that there are those in the city who love other sports as well as baseball. The ideal weather of Sunday afternoon was partly responsible for the good attendance, as many who went to the park would probably have gone anyway, whether there were attractions and amusements there or not.

However, the enthusiasm of the crowds at both the football game and the races indicated that the several thousand people were well entertained and those who promoted the two sports can feel that their efforts were appreciated.

At Wehrle park, two athletic teams from Columbus put on a good exhibition of football before a crowd which was small at the start, but which was augmented later by several hundred from the races from across the canal. The Southerns outclassed their lighter opponents, the Crescents, and won easily, 15 to 0.

At the race track within the circular mound, some fast time was made in the various races and the events were tight enough to be interesting and at times really exciting.

Motorcycle races, like auto races, furnish enough thrillers to satisfy the average demand for excitement. When a cycle rider scrapes the whitewash from the fence as he makes a turn, it is difficult for the spectators to see how he escapes an ugly spill. This happens in every race and the crowd is continually on its toes watching for something to happen.

Fortunately the races yesterday were not marred by any serious accidents, though Walter Kussmaul, riding an Indian, did spill on the turn into the stretch in one of the races. He escaped with slight bruises and his machine was unharmed.

The Football Game.

Through the efforts of the Kublens, who are connected with the Smith Shoe factory, lovers of football in Newark were given an opportunity to see two fast Columbus football elevens in action. Both elevens represented athletic clubs of the Capital City, the Southerns and the Crescents.

The former team outweighed and outplayed their opponents and the scoring of fifteen points really doesn't indicate their strength. Poor line defense at times caused their plays to be broken up with the ball far back of the scrimmage line and the Southerns were frequently thrown for a loss when a better defense on the line would have enabled the man carrying the ball to make a gain.

The game was not started until about 4 o'clock, the management wishing to give the crowd at the races an opportunity to see the start.

The Southerns received the ball on the kick-off and rapidly advanced the ball into the Crescent's territory. After a very few minutes of play, Radcliffe carried the ball over for a touchdown. Poor kicking resulted in no goal and the score was Southerns 5, Crescents, 0.

In the same quarter, the ball was carried quickly into the Crescent's territory and Radcliffe again went over for a touchdown and again the Southerns' kicker failed to put the ball between the goal posts. Score, Southerns 0 Crescents 0.

The first quarter ended soon after the second touchdown and in the second and third quarters the Crescents took a brace and played a better defensive game.

In the last quarter, most of which was played in the dusk, Lamb got the ball and eluded the defense and carried the ball for a short run for the third and last touchdown. Again the kicker failed in his attempt for goal and the score remained 15 to 0.

The Southerns were frequently penalized for rough play and the number of times that play was suspended while some warrior of the gridiron was revived, indicated that both teams were sincere in their efforts to score or prevent scoring.

Nehls and Kublens officiated satisfactorily. The crowd caused considerable trouble by getting on the field, but for the most part was easily handled.

The Southerns will play another game next Sunday at Wehrle park, weather permitting, and the management promises to have a first class team to oppose them. In all probability a strong team from Lancaster will be brought to Newark to battle with the winners of yesterday's game. Line-up and summary:

Motorcycle Races.

Before a crowd of 1500 or 2000 people, the second race meet under the auspices of the Newark Motorcycle club occurred. It was a classy meet and the interest never lagged from the time the first race started until the last was finished.

There were seven riders entered in the various events. In the eighth race, Walter Kussmaul, riding an Indian, struck a stick in the track while rounding the turn into the stretch and had a nasty spill. Aside from a badly bruised arm and leg he was uninjured and was fortunate to escape so easily.

The club was well pleased with the attendance and announced that this would be the last race of the season. Plans are already being formed for next season and it is expected to pull off at least one race a month next summer and fall.

Summary of events:

Event No. 1.—Two-mile novice; open. Schenck first, pair of cuff buttons, Haynes Bros. Kussmaul, second; watch fob, Haynes Bros. Time—2:47 1-2.

LUCKY GAME FOR DENISON

Springfield, O., Oct. 30.—In failing to receive Denison's punts, Wittenberg lost on Zimmerman field Saturday afternoon by the score of 8 to 0. In the second period the Lutherans were tardy in falling upon Wickendon's long punt and a safety was scored against them. In the fourth period Wittenberg forced Denison to punt from her 50-yard line. Schaefer again failed to receive the ball and it bounded behind the goal line and was captured by a Denison man, scoring a touchdown. Denison played faster ball than Wittenberg and on form should have won the game by a much higher score. The line-up:

Denison, (8).	Wittenberg, (0).
Hendricks-Morrow	Hauer
Left End.	
Ashley	Ferguson
Left End.	
Hewins	W. Allen
Left Guard.	
Watkins	Conard

Wood	H. Portz
Right End.	
Doeter	Schaefer
Quarter Back.	
Phelps	Wilson
Left Half.	
Rupp	P. Allen
Right Half.	
Wickenden	Kaufman
Full Back.	

Touchdown—Wood. Goal kicked—Wickenden. Safety—Schaefer. Referee—Clarke, of Ohio State. Umpire—Prugh, of Ohio Wesleyan. Field Judge—Hatton, of Antioch. Time of halves—25 minutes.

UTICA HIGH WON BOTH GAMES

Thursday afternoon the U. H. S. football team won a 7 to 6 game from the Utica City team.

Friday afternoon they defeated Alexandria H. S. 26 to 0.

Only once in Friday's game was Utica's goal endangered. The clean, loyal playing of both H. S. teams was fully appreciated by the 200 spectators.

AN OLD REMEDY FOR BLOOD POISON

For more than forty years S. S. S. has been curing Contagious Blood Poison in all its forms and stages, and is today, as it has always been, the safest as well as most reliable remedy for this disease. One reason why S. S. S. is so successful in curing Blood Poison is that it strengthens and builds up the stomach and digestive members while eradicating the poison from the blood. The greatest of all reasons however is because this medicine possesses just the proper ingredients, blended and compounded in such scientific proportion, as to make it the most perfect blood purifier ever placed upon the market. S. S. S. is made entirely of roots, herbs and barks, and in addition to its value as a remedy, is the one blood medicine which may be used without any bad effect, no matter how delicate the system. Not a particle of strong mineral or other harmful drug enters into its composition, and you can take it assured that it will cure you and at the same time build up your system. S. S. S. cures permanently and perfectly, removing every symptom of the trouble by nature's true way—removing the inward cause. Get S. S. S. at your drug store and then write for our Home Treatment book which is free and of great assistance to every sufferer of this disease.

HEARING DENIED IN DEATH SENTENCE OF A MERE YOUTH

Little Rock, Ark., Oct. 30.—The supreme court of Arkansas today formally denied a rehearing in the case of Early Gilchrist, the negro youth, sentenced to death for the murder of a playmate. Only one member of the court dissented on the ground that the evidence showed that Gilchrist is only 15 years old. It is practically impossible to obtain the negro's real age.

It is certain now that an appeal will be taken to the governor, who has been flooded with letters and telegrams from all the northern states, asking that the boy's sentence be commuted. The governor refuses to discuss the matter and has given no indication that he will act. Unless the executive intervenes Gilchrist will be hanged in December.

WHY SHOULD HE CARE?

"I should think you'd be afraid to let your boys run your automobile?"

Oh, no; I have it insured."—Home Herald.

AUTO EXPERT IN PERIL

The great automobile industry which is the marvel of the 20th century, has been developed at a terrific cost of human energy.

The well-known automobile engineer of New York City, C M. Archer, had a very trying experience which he relates in a letter as follows: "As a result of overwork in my profession my health became broken down a year ago. This grew worse and I became very weak and nervous. Then I began to take Vinol and now I am strong and well again.

"Vinol has certainly worked a miracle in my case It is the greatest body builder I have ever seen and nothing equals it. You may publish this for the benefit of every man and woman who wants to know the way back to health and strength."

There are many overworked men and women in this town who ought to take Vinol right now and recover their health and strength while they can Do not delay another day We guarantee Vinol to do you good and give back your money if it does not. F. D. Hall, Druggist, Newark, O.

YOUNGSTERS PADDLED BY IRATE MAMMAS

Pittsburg, Oct 30.—Nine boys, filled with nonsense from a bunch of thrillers, were soundly thrashed by their mothers in Magistrate Kirby's police court yesterday. Five had a yearning to become detectives, two had filibustering expeditions planned, and two of the youngest were planning another campaign against the poor Indians

Patrolmen McGonigle and McCready collared the gang in an old cave on the Second avenue hillside, above the Baltimore and Ohio tracks By the weird light of two oil lamps the nine youngsters were sprawled or seated, eating up the unwholesome guff turned out by New York thrill writers who were never further west than Jersey City.

The magistrate sized up the youngsters in court and then looked at nine menacing mammas outside the rail One by one the little lambs were led to the parental slaughter As each passed through the little gate into the courtroom he was seized by his mother One carried a razor strop, and she had to sit down to do her duty The others mauled about with calloused hands, cuffing the youngsters about the ears, spanking them and shaking them until their teeth rattled.

"What's the use of reformatories?" groaned Magistrate Kirby "I never took a beating like those kids did in my life."

A FAIR OFFER

Your Money Back If You Are Not Satisfied.

We pay for all the medicine used during the trial, if our remedy fails to completely relieve you of constipation. We take all the risk. You are not obligated to us in any way, whatever, if you accept our offer. That's a mighty broad statement, but we mean every word of it Could anything be more fair for you?

A most scientific, common sense treatment is Rexall Orderlies, which are eaten like candy. Their active principle is a recent scientific discovery that is odorless, colorless, and tasteless; very pronounced, yet gentle and pleasant in action, and particularly agreeable in every way. They do not cause diarrhoea, nausea, flatulence, griping, or any inconvenience whatever. Rexall Orderlies are particularly good for children, aged and delicate persons.

If you suffer from chronic or habitual constipation, or the associate or dependent chronic ailments, we urge you to try Rexall Orderlies at our risk. Remember, you can get them in Newark only at our store. 12 tablets 10 cents, 36 tablets 25 cents; 80 tablets 50 cents. Sold only at our store—The Rexall Store. Frank D. Hall, 10 North Side Square.

MOTOR BOAT GOES THROUGH THE WHIRLPOOL

Niagara Falls, N Y. Oct. 30. — Captain Klaus Larsen of Detroit, made his second Niagara River trip in a motor boat from the cataract to Lewiston. He completed the 6-mile trip through the turbulent waters in 25 minutes, coming through without a scratch. Larsen says he is through with Niagara adventure, but next year will make a trip across the Atlantic in his boat, the Niagara.

Larsen started from the Canadian Maid of the Mist dock at 1:50 o'clock and swept under the lower steel arch bridge five minutes later. Coming into Swift Drift, where the river breaks from the calm upper reach to the rapids, he veered toward the Canadian side

The boat rode the smaller waves without a tremor, but, caught by the fierce current about midway of the rapids, she was hurled up and almost clear of the mountains of water. Once the craft was side-swiped and almost keeled over by a comber. The rapids trip took hardly more than a minute

As the Niagara entered the whirlpool her engine was working perfectly. Larsen kept toward the American side of the pool, but he was caught in a cross current and was almost drawn into the vortex Only the hardest kind of work with the tiller prevented trouble.

Once clear of the whirlpool Larsen headed the boat upstream in order to put things in shipshape for the final test in the Devil's Hole rapids.

He was badly buffeted in the lower rapids, but managed to hold a course close to the Canada side, and at 2:14 o'clock passed under the suspension bridge at Lewiston. He had made the five miles between the bridges in 19 minutes.

Larsen made his first trip through September 18, 1910. The Niagara, the boat he used today, is 15 feet long, 5 feet 6 inches bear and 4 feet deep. The engine is 14 horse power. About 700 pounds of sand ballast was used.

QUIT CALOMEL!

THOUSANDS ARE TURNING FROM THIS DANGEROUS DRUG.

A Safe Vegetable Substitute Is Olive Tablets for the Liver.

Dr. F. M. Edwards, a promient physician of Portsmouth, Ohio, has discovered a new laxative and liver toner in a combination of vegetable materials, mixed with olive oil, which is in effect almost exactly like the old and untrustworthy calomel, except that there are none of the bad after effects of calomel.

Dr Edwards has long been a foe of calomel though he recognized its value along with its dangers.

His distrust of the uncertain drug eventually started him years ago towards experiments with the view of discovering a substitute, and he is today in possession of a long sought for combiation, which is in the shape of a little sugar-coated, olive oil colored tablet The results of fifteen years' experience and practice are embodied in these marvelous little tablets.

They are called Dr. Edwards' Olive Tablets, and their effect on the liver has been the means of relief to many of Dr. Edwards' regular patients as well as to thousands of others who have suffered and were afraid of calomel.

They are gentle in their action, yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of harmful impurities.

"Every little Olive Tablet has a movement all its own."

All druggists sell them in neat vest pocket sizes at 10c and 25c.

Saurbrey thinks he is very wealthy and says he has just finished the score of a great opera which will make him famous

WHIRLED TO DEATH IN DRIVING SHAFT OF ROAD ROLLER

Coshocton, Oct. 30.—Gilbert Rutledge, aged 40 years, was whirled to death Saturday when his body became entangled in the driving shaft of a steam road roller which he was driving to this city from Keene. John Norris, who was riding on the platform with Rutledge, was an eye-witness to the accident, but was unable to save Rutledge after he fell.

Wolfe's ambulance and Dr. Jesse McClain were summoned, but Rutledge was found to be beyond all earthly aid and his body was brought to the morgue in this city. The victim was unmarried and made his home with his brother, on the Warsaw road.

OBITUARY

MR. WESLEY SHANNON.

Mr. Wesley Shannon, a prominent and wealthy resident of Madison township, died at his home on the old Shannon farm, where he had passed the greater part of his life, on Saturday night about 10:30 o'clock. Mr. Shannon had been a sufferer from uraemic poisoning for a long time and had been declining in health for the past three years.

About one week ago he had three toes amputated and his death was due to gangrene, caused by uraemic poisoning.

The deceased was a son of the late Thomas Shannon and was a man who was universally respected by all who knew him. For a number of years he had been one of the leading Democrats of the township. He is survived by his widow, one son, Webster, one daughter, Mrs. George Morrison, one brother, William, who lives in California, and one sister, Mrs Nathan Denman of Reform. The funeral services were held at the late home of the deceased Monday afternoon, and were largely attended by relatives and friends. The burial was made in the Shannon burial ground, near the Shannon farm.

Why is the soda cracker to-day such a universal food?

People ate soda crackers in the old days, it is true—but they bought them from a barrel or box and took them home in a paper bag, their crispness and flavor all gone.

To-day there is a soda cracker which is *the recognized staple* — Uneeda Biscuit.

Uneeda Biscuit are the most nutritious food made from flour and should be eaten every day by every member of the family from the youngest to the oldest.

Uneeda Biscuit—soda crackers better than any ever made before—made in the greatest bakeries in the world—baked to perfection—packed to perfection—kept to perfection until you take them, oven-fresh and crisp, from their protecting package.

HEALTH HINT FOR TODAY.

Ten Commandments.

Dr. William H. Evans, who for more than four years was health commissioner of Chicago, gives these ten commandments for longer and better living:

First.—Go where you will breathe no bad air.
Second.—Live simply, whoever you may be.
Third.—Eat little, but eat that little long.
Fourth.—Disinfect with sunshine and air.
Fifth.—Avoid flies.
Sixth.—Feed no unclean milk to your baby.
Seventh.—Buy no food from unclean dealers.
Eighth.—Keep out of crowds in pneumonia weather.
Ninth.—Avoid careless people—careless consumptives, people careless of colds, scarlet fever, diphtheria, measles and typhoid fever.
Tenth.—Earn health by right living. There is no royal road.

Every candidate on the Democratic ticket is worthy of your support. While the election of F. M. Swartz is practically assured, do not forget that he must have the hearty co-operation and support of the council and administrative officers. A glance at the names of the candidates should convince every one who knows these men, of their excellence of character and pre-eminent fitness for the offices for which they are candidates.

THE ALDRICH PLAN.

Ex-Senator Aldrich, chairman of the national monetary commission, has revised his proposed scheme for financial legislation. But in the main, the Aldrich plan, which would place the public's credit under control of Wall street, is unchanged.

Nobody can read his plan in detail without realizing that it is a central bank of issue that he proposes. The government had one experience with a central government bank. It was manned by politicians and operated for their benefit, bringing on panics and bank failures.

Realizing the hostility to a central government bank, Mr. Aldrich gives his scheme the title: "National Reserve Association." It is practically a central government bank under a different name.

Best for all liver ills. Try them.

F. MARION SWARTZ'S PLATFORM HAS NO USELESS VERBIAGE; IS SIMPLY "GREATER NEWARK"

The municipal campaign in Newark, which is entering the last week, has been one of intense interest and it is probable that an overwhelming percentage of the registered voters will go to the polls and cast their ballots, on November 7th.

Partisan lines in this campaign seem to be obliterated almost completely, as the intelligent voter realizes that the issues to be met by the next administration are not political, but have to do with the general affairs of a city's government, which should be administered with an eye single to the best interests of every taxpayer and every resident.

The man who is elected to the office of mayor, the executive head, every candidate for councilman, from whom the law-making body of the city will be chosen, as well as those who aspire to election to the various administrative offices, should be subject to the careful and considerate scrutiny of every voter before they receive the suffrages, they are now soliciting.

This city is now following the torch of progress, which is leading the way to a "Greater Newark." Every agency whose aim is to accomplish this desideratum, is now in the full vigor of maturity, or effective growth, and results will be accomplished far beyond the expectations of the most optimistic, and every citizen should realize that nothing should be done to retard development along every line, by a mistake in putting into office anyone who is not temperamentally inclined, as well as intellectually fitted to be in sympathy and co-operate with every effort now going forward or to be later launched for the physical, commercial, and industrial betterment of his home city.

This is no time to take a backward step. Reactionary predilections and influences should have no place in the general scheme of advancement. Anyone who holds them or is controlled to any extent by them, should be defeated at the polls as an insidious enemy to that progress which is so essential to Newark's best and nearest interests.

The Democrats have put a ticket in the field which, as a whole, is the best before the voters. F. Marion Swartz for Mayor, was nominated by the Democratic party, and by no faction. He is neither influenced nor controlled by any faction, whose narrow-minded or bigoted policy would be personified in him, if elected.

He is a man of broad mind and generous disposition, who will have the desire uppermost in all of his efforts, to make an actuality of "Greater Newark." He is not attempting to secure votes by false promises, or resorting to any methods of double crossing with a view to confuse the issues. His platform is straightforward. There is no subterfuge. No sophistry. Its verbiage is condensed in two words: its significance is amplified to boundless possibilities. "GREATER NEWARK."

Over confidence is one fault that the Democrats of Newark should avoid during the remainder of this campaign. Each one must remember that although the ticket from top to bottom excels in all respects, this very excellence has aroused the opposition to redoubled efforts. The Republican managers are doing desperate work, on the quiet of course but Democrats should nevertheless beware of the apathy that is engendered by over confidence.

A STAGGERING BLOW.

The Department of Agriculture frequently issues a small pamphlet, telling of the outcome of suits filed by the department against violators of the pure food laws. One of these pamphlets, No 1103, tells of a New York concern having plead guilty to using arsenic in the manufacture of a food product known as "Light Shade Egg Color." The food poisoning firm was fined $25. Pamphlet No. 500 tells of a concern pleading guilty to foisting upon the public a food product consisting in part of "dirt and eggshells" and "a filthy, decomposed, and putrid animal substance." This manufacturer was fined $10. Now that these staggering blows have been struck, is it likely that other food dopers will cease administering arsenic and "putrid animal matter" in food products?

The policy of Mayor Swartz when he assumes his office, will be one that has only one purpose to accomplish: the encouragement of every effort to have Newark rank with the very best cities in the country from the standpoint of physical beauty, industrial activity and commercial prosperity.

MONA LISA.

Why was Mona Lisa smiling in a manner so beguiling? Folks have wondered what amused her for four hundred years or so. What was going on so funny that she sprung a smile so funny? What occurred so laugh provoking in those days of long ago? Were the merchants advertising bargain carnivals surprising, was she dreaming of a bonnet that would break the neighbors' hearts? Was she planning brave excursions in the stores, and such diversions, plundering the remnant counters in the city's busy marts? Oh, that smile! We can't discover what it was that made it hover on the face of the lamented in the voiceless vanished years; anyhow, that smile is famous and the sages cannot blame us that we're all in love with Mona, who preferred a smile to tears. Is there in the realm of painting any pictures of a fainting, mournful, melancholy maiden who's been loved as much as she? Thus a smile goes down the ages, lightening life's dreary stages, bringing gladness to our voyage, like a sunbeam on the sea.

Copyright 1911, by George Matthew Adams. Dare Mason

Every citizen of Newark who keeps in view the best interests of the city and who favors the municipal policy that will promote all business lines and industries to the greatest extent, will see the wisdom on November 7 of voting for Marion Swartz for mayor and the entire superior Democratic ticket. The Democratic slogan in this municipal campaign is Greater Newark. That is just what the election of the Democratic ticket means.

Four counties have just held county option elections under the Rose law. Three of them have reversed the result of three years ago by voting "wet" and the other remains "dry" by a greatly reduced majority. In all of them the agitation of the question has been greater than it was three years ago.

PROPER TREATMENT OF LYNCHERS

(Washington, C. H., Herald.)

It is worth while knowing that a jury in Newark, Ohio, in the case of a man charged with being a principal in a lynching, has brought in a verdict finding the defendant guilty of murder in the second degree. The verdict carries with it a sentence of life imprisonment.

That jury deserves commendation. If other juries would deal in the same manner with those who take human life in disregard of the law the number of lynchings would materially decrease and a blot be removed from the otherwise fair name of the United States.

AMUSEMENTS

What the Press Agent Says

Peck's Bad Boy.

"Peck's Bad Boy," which is to be presented at the Auditorium tonight has been wheeling about the country for years and everywhere it has been presented there has been but one verdict by press and public, namely, that it is one of the most entertaining and satisfying stage creations ever devised.

The Isle of Smiles.

A 60-foot baggage car is required for the transportation of the immense amount of beautiful scenery and effects that go to make the new musical comedy, "The Isle of Smiles" the one big success that it has proven to be, and it has been said to be the best musical comedy that the present season has yet produced. The date here is Saturday, Nov. 4, at the Auditorium theatre.

The Girl in the Taxi.

The greatest event of the present theatrical season will be marked in this city by the appearance of that widely-heralded play, adapted from the French, entitled "The Girl in the Taxi," which is scheduled for appearance at the Auditorium theatre on Monday evening, Nov. 6. It is said to be one big scream from curtain to curtain.

Madame Sherry.

The greatest of all musical hits in the last twenty years is the famous French vaudeville, "Madame Sherry," which will delight local theatre-goers at the Auditorium Thursday, Nov. 2. It will be presented here by the New York company. The company is headed by Miss Marie Flynn, of whom the Montreal Gazette said: "That she was an Elsie Janis unspoiled by vaudeville, with a greater power of sustained impersonation and with something of Edna May's wistful innocence." Another prominent member of the cast is Oscar Figman, who is a great local favorite and is well known by his clever work in the "Merry Widow," also, and the wonderful chorus. In criticising "Madame Sherry" another paper said: "'Madame Sherry' is one of the brightest, cleverest, wittiest, prettiest entertainments ever seen on any stage. It sparkles, it has humor, melody, color, spirit and a song theme which for sheer lilting seductive fascination excels anything since the days of the 'Blue Danube.' Compared with "Every Little Movement Has a Meaning All Its Own,' the 'Merry Widow' waltz is a poor wisp of melody.'

One of the biggest advance sales in the history of the Auditorium theatre is expected and it is conceded that "Madame Sherry" will draw the largest houses that the Auditorium has ever had.

Its theme song entitled "Every Little Movement Has a Meaning All Its Own," has been the rage in town for months. Some of the other musical gems are: "You Can't Argue, Can You?" "The Kiss You Gave," "Uncle Says I Mustn't and I Won't," "The Birth of the Butterfly," "The Smile She Means for You," "The Love Dance," "I Have Feathers in Me Hair," "I'm All Right," "I Want to Play House With You," "Off for a Sail," "We Are Only Poor Weak Mortals After All," Etc

Some of the terpsichorean novelties are "The Birth of Passion," "Athletic Prancing," "The Seduction" and the famous "Danger Dance."

The Orpheum.

"A Lesson in Dancing" will be presented by Davis & Walker at the Orpheum the first three days of this week. A better and more pleasing colored team has never been seen at the Orpheum, for they are the best eccentric dancers on the vaudeville stage today. They come here from the Keith time, and it was only at great expense that Mr. Murray was able to secure them. Newark patrons are lucky in being able to see them. Bert and Emma Spears are another clever team, with something new and original to offer. They are presenting a conversational pianologue oddity in which they offer only their own compositions. The Walseys, three clever men, will more than please with their clever comedy acrobatic stunts. These comedians are said to have a new line of fun, which keeps one laughing throughout the act. Cula De Schon, the only living descendant of the Aztecs, reproduces her home as it is on the reservation. She is a very pretty singer and dancer. Her stage settings consist of many relics and beautiful handiwork of her ancestors, and the special scenery she carries helps to make her act quite a treat. The Orpheumscope has a pretty picture.

Aurora shingle stains

It Took Us a Long Time to Work Out the Shingle Stain Problem

Aurora Shingle Stains are the answer. They beautify and protect the shingles against every weather whim—the extremes of storm and calm, heat and cold.

They are sold in PASTE form to be thinned by the painter to suit his requirements. One pound of paste makes a gallon of stain. This has many advantages. It enables the dealer to carry a complete assortment of colors; is more economical for the consumer.

For those who prefer the old way, we also sell the stains prepared, ready for use.

Aurora Shingle Stains will save you money—not so much in the price as in the longer life and greater beauty they give to your shingles.

SOCIETY

Hallowe'en parties grow in popularity with each succeeding year. There's no doubt that this time gives the hostess unequaled opportunities in the way of decorating and refreshments, as well as varied mirthprovoking ways of entertaining.

Tradition tells us that the first Hallowe'en festival was held by the Druid priests on an October 31, long before Christ was born. As nation after nation became Christianized the day came to be known as "All Hallow" because it preceeded All Saints' day.

A century ago it was customary to build great bonfires on the hills to proclaim that sacred rites were being performed, and it was a time for great rejoicing. In honor of the custom a huge log fire is a desirable attribute to a Hallowe'en celebration.

As this is the one night in the year when fate is supposed to give to mortals power to peer into the future and divine the course of true love, it is well in this connection to give a few of the methods for those who care to know.

Tassels from corn ears are named, then placed over the doors and the first person to pass under will be the life partner of the one who named them.

Old fashioned forfeit games are always fun, and they are very appropriate.

Nuts have been fortune tellers since the days when Druids threw them into the ashes of the fire. If the nuts burned well, prosperity was indicated, but if the nuts turned black and smoldered, sad days were at hand.

Every girl has thrown an apple paring over her head to see if it spelled the first letter of her sweetheart's name when it struck the floor, but not many know that in order to make the charm work properly these lines must be repeated:

I pare this pippin round and round again,
My sweetheart's name to flourish on the plain;
I fling the unbroken paring o'er my head,
My sweetheart's letter on the ground to read.

Midnight, the witching hour, is the ideal moment for the serving of refreshments at all Hallowe'en celebrations. The menu should consist of brown bread, sandwiches, potato salad, olives, cheese, and everything else which the host or hostess may desire; but the one and all important thing is the big mystery cake.

The Phi Sigma Chi fraternity will give a dance in the Masonic Temple on Tuesday evening, November 24. It will be one of the most elaborate events of the season. Members from every chapter in Ohio will be invited, and it is expected to be the largest fraternity dance ever held in Zanesville.—Zanesville Courier

Mr. and Mrs. Robert Stone delightfully entertained a few of their friends with a dinner party Thursday at their beautiful country home five miles north of the city. The day was very pleasantly spent in music and conversation and at noon a five course dinner was served.

Those who enjoyed Mr. and Mrs. Stone's hospitality were Mr. and Mrs. Thomas M. Jones, Mr. and Mrs. John Sachs, Mr. and Mrs. Elmer Moore, Mr. and Mrs. Sam Sachs, Mr. and Mrs. Bourbon Miller, Mr. James Parnell, Mr and Mrs. Charles Wilson, Mrs. Hamlin Montgomery and Mr. Edwin Fontgomery of Hanover, Mr. and Mrs. John Chilcote of Columbus, Mr. and Mrs. Stanley Montgomery of Alexandria, and Mr and Mrs. S. P. Elliott of Chatham.

Friends have been informed of the approaching marriage of Miss Gertrude Ford, daughter of Mrs. E A Ford formerly of this place, now of Newark, O., to Edward Kemistzer of that place. The wedding will take place at the home of the bride-elect's mother at high noon Tuesday, October 31. W. F. Frame, Mr and Mrs. Chas Andrews and family of this city will attend Mrs Andrews and Miss Ford are cousins.—Zanesville Courier.

MUFFS HAVE REACHED AN EXAGGERATED SIZE

It seems impossible for muffs to be larger than they are at the present moment. Some of the smartest models measure almost a yard across, and there are deep bag muffs almost a yard long. The big muff pictured is made of moleskin, the strips of fur running in opposite directions and producing a handsome striped effect. The muff is accompanied by a moleskin scarf, and the tapestry hat has a brim of this pretty fur. The set is worn with a suit of tobacco brown mohair.

HEART AND HOME TALKS

Some Games for Hallowe'en.

THE time-honored games will, of course, be a part of the Hallowe'en festivities, for Hallowe'en without them would be like Hamlet with Hamlet left out. But sometimes, these old-time customs are not quite enough for the evening's entertainment, or the hostess may like to serve them up in new form, or perhaps she may want a few games not quite so well known. Therefore, the following suggestions may help in one or the other of these ways.

If practicable, it adds a spice of novelty to the Hallowe'en party to have a gypsy tent or a cave, in which some priestess of the occult divines the future for all anxious questioners. She may read palms, tell fortunes by tea leaves, use cards, or combine these and other popular methods. If there is an open fireplace, another clever girl might preside here, and with solder and also nuts, presage the future. Each would be a centre of attraction, and would start the evening merrily, and break up any formality or stiffness.

Instead of bobbing for apples, it is very pretty to sail walnut shells in each of which is a tiny candle. By the behavior of these ships is foretold whether fortune or misfortune awaits its captain.

To tell in which month one is to be married, name twelve candles for the months, light them, and let each be jumped over. The one that is put out signifies the month for the ceremony. But this is a rather dangerous proceeding, for light fluffy dresses may catch fire.

A lot of amusement is furnished by suspending from the ceiling or in a doorway crossed sticks of witch hazel. On the end of one, place a piece of bread, on another a bit of candy or something sweet, on the third a candle end, and on the fourth a red pepper. Set the rods to twirling rapidly, and the person who wishes to know what his married life will be essays a bite. It is easy to tell by the look on his face, just what sort of matrimonial experience is ahead of him.

Those who want to know if some certain wish will come true, should be given a lighted candle and a funnel made of paper. If by blowing through the funnel, the candle is blown out, the wish will be granted.

Happiness is in store for the one who can toss an apple through a horseshoe suspended in a doorway.

A wheel of fortune also helps along Hallowe'en fun. It can be made of heavy pasteboard, any size desired, and covered or decorated in keeping with the spirit of the occasion. Upon one of the spokes, fasten an arrow pointing outward.

Prepare a number of cards with fortunes, which can be written in rhyme, if the hostess is clever at such things. The cards are dealt in a circle around the wheel, blank side uppermost. The one who wants to know the fortune that awaits him, spins the wheel, and the card that the arrow points to will reveal what the future has in store.

This can be varied in several ways. There may be a set of cards devoted especially to telling what sort of partner will be secured in the matrimonial lottery. Both personal appearance and character can be given. The hostess can in reality make up her cards to suit her company.

MILLIONS OF FOLKS USE ONLY CASCARETS

They Never Have Headache, Biliousness, Sluggish Liver or Bowels; or a Sick, Sour Stomach.

No odds how bad your liver, stomach or bowels, how much your headaches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish intestines—you always get the desired results with Cascarets and quickly too

Don't let your stomach, liver and bowels make you miserable another moment; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache ad all other distress; cleanse your inside organs of all the poison and effete matter which is producing the misery

Take a Cascaret now; don't wait until bedtime. In all the world there is no remedy like this. A 10-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All druggists sell Cascarets. Don't forget the children—their little insides need a good, gentle cleansing, too.

Fruit Apple Roll. Mix together a pint of flour, two scant teaspoonfuls of baking powder, a half teaspoonful of salt, and one teaspoonful of sugar. Rub in two good tablespoonfuls of butter then mix to a soft dough with sweet milk and roll out in a long sheet Chop fine sufficient tart apples to give a half pint, add a half cupful of sultana raisins, two tablespoonfuls of sugar, a pinch of cinnamon and cloves. Spread this over the prepared dough, roll up, pinch the ends to prevent oozing, lay on a greased flat pan and steam for half an hour, then place in the oven long enough to dry the top Serve with hard sauce.

Sour Cream Gingerbread One cupful of sour cream, one cupful of molasses, one-half cupful of brown sugar one egg, one teaspoonful each of cinnamon and ginger, one scant half teaspoonful of soda sifted and dissolved in the cream, one scant teaspoonful of baking powder, sifted with four cupfuls of flour. Bake in two shallow pans.

SPURNED OFFERS OF CHIVALROUS LOCAL OFFICER

And Sofi Trudged Home in the After Being Released by Mayor Ankele.

"I love her and want her to live with me" declared John Bonnki, a foreigner, in police court Monday morning, when he appeared against his wife, Sofi Bonnki, who was arrested on a charge of disorderly conduct. She was arrested at the request of her husband while she was in company with another man.

Bonnki sought to clear the storm from his matrimonial seas by this process. The storm brewed after a brief and record breaking courtship and marriage.

He told the court that he only called on his wife twice before he married her. He said he first saw her at a dance of his fellow countrymen at the Music Hall. He met and danced with her and the next day he wrote a letter declaring his friendship for her.

She answered and he called at her home. Another letter followed, and another call at the girl's home when he proposed, was accepted and they were married next day.

The woman declared that ere the honeymoon was ended, Bonnki mistreated her, struck her and otherwise abused her. She refused to put up with his method of displaying his affections and left him. Since that time, Bonnki declares she has received the attentions of other men.

Sofi refused to act on the advice of Mayor Ankele who urged her to return to her husband's home. The charge against her was dismissed and she was allowed to go home.

"You'd better go home on the car" suggested the court with a glance out of the window and noting that it was raining.

"I have no money" declared Sofi and immediately several gallant police officers dug into their pockets to furnish the necessary car fare, for Sofi is an unusually pretty woman. One officer urged her to accept a 50 cent piece for her car fare but she refused and trudged home in the rain.

FALSE RUMOR REGARDING FIRE ON WILSON STREET

Created Excitement at Wehrle Plant and Fast Auto Run Was Made to Big Plant.

Wrong information given to the North and East End fire companies last night about 10 o'clock caused these departments a long and needless run to Wilson and Union streets in response to a fire alarm.

The alarm was turned in at the box and when the companies in the outlying district inquired the location of the blaze they were told that the Wehrle plant was afire.

Incidentally, Chief Bausch of the fire department, who was spending the evening at the country home of the Wehrles, west of the city, got the same information, and four powerful machines made a flying trip to the city, expecting to see a bad blaze in progress at the stove foundry.

The fire was an insignificant one, in a closet in the home of several foreigners at 320 Wilson street. The origin of the blaze is unknown and the damage was slight.

Sunday night was an "off night" for the chief and he was a guest at the Wehrle home. Messrs. W. W. and August Wehrle and George Pickup composed the other members of the party.

Chief Bausch was notified that box 52 was "hitting" and he at once attempted to learn the location of the fire. He could get no satisfaction, but a few moments later some one called on the telephone and stated that the blaze was at the Wehrle plant.

The men hurriedly got their motor cars into action and made a fast trip to the city, but were pleasantly disappointed when they found that the blaze was nowhere near the plant.

AWARDS FOR GUESSES ON PRIZE PUMPKIN

Colonel J. F. Ryan from now on until the close of Thanksgiving day will offer another unique entertainment to his friends at his Union Market, South Park Place.

He offers cash prizes to his customers who can guess the exact number of seeds in the mammoth pumpkin which took the first prize at his recent scuccessful pumpkin fair, and other cash prizes to those making the next nearest correct guesses.

Then he will give merchandise prizes to those who draw certain letters and enough to complete the words, "Pumpkin Pie."

A ton of pumpkins will be made into pies and given away the last four days of November by a plan which is described on neat cards which may be had by applying to the genal Colonel in person. On the back of this card the Colonel has written a characteristic poem on "Thanksgiving Pumpkin Pie."

Get a prize list and other details of the prize contests and Thanksgiving celebration.

Daddy's Bedtime Story— When Little Boys Are Late For School

"JACK was late for school this morning," said Evelyn. "The teacher made him stand up in the corner. Do you think that was fair, for Jack hasn't been late for a long time?"

"I wouldn't take Jack's part against the young lady teacher. She knows better than I do what to do with little boys who are late for school.

"I used to be late for school myself a good deal, but I found a teacher who was too much for me. She locked the door until after the opening exercises.

"Well, sometimes it was pretty trying waiting outside the door. The principal was a little man who could frown at naughty boys in a way to make them quake in their shoes. He would sometimes come along and ask each of us sternly why we had been late.

"Miss Margaret—that was our teacher's name—lived in a delightful old fashioned house on the edge of the town. There were some fine chestnut trees in that yard. Every boy in town would have given his head to own those trees. Miss Margaret probably knew this when she made up her mind to have a chestnutting party. One morning in school she asked the children to come to the party on the next Saturday afternoon.

"I was outside—late—so I wasn't asked. Miss Margaret told the boys and girls that they were to say nothing about the party to any boys and girls not present.

"When the party came off and I found why I had been left out and that other surprises of that sort were in store for those who got to school in time I made up my mind not to be late again.

"My father and mother heard about the chestnutting party that I had missed and why I had missed it, and instead of laughing about it they said I could not go chestnutting that year in the woods. My supply of chestnuts being thus cut off, I had a good deal to think over.

"When I formed the habit of getting to school on time I learned to thank Miss Margaret for making me see the error of my way. If she hadn't I might have missed a great many more important things in life than that chestnutting party."

"Jack is late a good deal. I wonder if his teacher wouldn't like to know about Miss Margaret's way," pondered Evelyn.

"Maybe she would. I heard mother say she was going to ask her here to take tea some evening, and I may have a chance to give her a hint, so Jack would better turn over a new leaf, for I've an idea that I will take a certain little boy and girl to see the fairy play at the end of the month if there are no absent or late marks against their names in school."

STATE POWER.

A good deal of our recent discussion about federal powers and state powers treats them as if they were in antagonism with each other. No sane or public spirited man is jealous of federal power. But what we wish to guard against is the atrophy of the local agency, the weakening of those great instrumentalities which have vitalized our communities everywhere and made self government a human relation. What we wish to prevent is anything which will relieve our people from the necessity of taking care of themselves. Our system of government has been great because it has put upon the states the necessity of working out their own problems and has put the people everywhere upon their mettle; has left them economic and social salvation to their own discernment and their own exertion.—Woodrow Wilson.

CATARRH OF STOMACH

Indigestion and Stomach Agony Quickly Ended.

If you went to thirty doctors and paid each his fee for a prescription for indigestion or stomach misery it is ten to one you wouldn't get such a good prescription as the one from which MI-ONA stomach tablets are made.

How can such a thing be? you naturally ask.

Simply because the man who wrote the prescription from which MI-O-NA tablets are made knows more about stomach diseases than 96 per cent of all the physicians in America, and he gets paid for knowing.

And when you can get a large box of tablets made from this doctor's prescription for only 50 cents, are you going to continue to suffer? Sold by Evans' Drug Store and druggists everywhere.

ANNUAL REPORT OF THE B. & O. MADE PUBLIC

Gross Earnings Were Nearly Ninety Millions — Benefits Paid in Relief Department Exceed One Million.

The 85th annual report of the B. & O. Railroad Company for the fiscal year ended June 30, 1911, is being received by the stockholders today. The statement of income for the year shops a surplus of $1,343,846.43 after payments of all charges and dividends of 4 and 6 per cent, respectively, on the preferred and common stock. The gross earnings, combining the "rail and outside operations," were $89,968,130.50, but $195,270.59 below the preceding fiscal year, when the earnings were the largest in the history of the company. The total net revenue was $25,230,624.58, a decrease of $1,737,193.30.

Passenger earnings were $15,208,432.15, which was a substantial increase of $722,847.06, or 4.99 per cent over last year. The passengers carried were 21,969,166, an increase of 836,046 and the average distance each passenger traveled was 36.23 miles. The average earnings per passenger per mile were 1.911 cents, which was an increase of .014 cents.

Earnings from express traffic amounted to $1,780,346.92, an increase of $65,189.95. The receipts from the transportation of mails were $1,169,068.20, a decrease of $7,775.55.

Expenses incident to rail operation were $62,766,067.04, an increase of $1,432,266.25, or 2.33 per cent. The expenses, in detail, were, for maintenance of way and structures, $10,279,615.82; maintenance of equipment, $15,881,620.38; traffic expenses, $1,948,966.46; transportation expenses, $32,818,499.86, and general expenses, $1,837,364.52.

Commenting on the expenses, President Willard states: "The increase in transportation expenses was principally occasioned by the increase in wages paid, which was largely due to advance made in rates of pay, effective the latter part of the fiscal year ended June 30, 1910. The interruptions to traffic incident to the extensive betterment work carried on at numerous points also affected adversely the transportation costs, and recent legislation, state and federal (notably the so-called 'full-crew' bills), has had similar effect upon the expenses. On account of the volume of business moving in the last six months of the fiscal year it was practicable to reduce maintenance expenditures to such an extent as to partly offset the increase in transportation charges above referred to. The tota lof all maintenance costs for the year was 29.68 per cent of the gross earnings, which is a liberal basis of expenditure and ample for the maintenance of road and equipment under existing conditions."

A statement of the operations of the relief department, which is one of the broadest of its kind on the American railroads, likewise the oldest, is given, the total benefits paid during the year exceeding $1,000,000. At the close of the year 7240 employes were depositors in the savings feature (an increase of 816 depositors), with total deposits of $6,326,361; with loans to employes aggregating $3,866,107, applied in the purchase of homes by members. The pension feature shows 708 employes on the retired list, to whom $171,746 was disbursed during the year.

A notable statement is that in connection with industrial development on the line. Two hundred and twenty-four new industries, manufacturing and commercial, were located on or immediately adjacent to the lines during the year, from which it is estimated that the company should ultimately derive freight revenue of over $1,000,000 per annum. Side tracks have been constructed to 135 of these plants. The latest results in scientific agriculture have been presented to farmers on special agricultural trains by demonstrators and lecturers from the experiment stations of the various states served by system lines.

The report embodies a comprehensive resume of the extensive betterments to road undertaken and additional equipment acquired. In this connection the president says:

"In pursuance of the purpose of your board, referred to in the last annual report, in the issuance of $50,000,000 three-year gold secured notes, due Jan. 1, 1913, to provide necessary facilities to meet the demands of general business and particularly the increasing industrial development upon your lines of railway, large additions were made during the year to your locomotive and car equipment, and the extensive addition and betterment work undertaken at various points was vigorously prosecuted."

During the year there were purchased 187 locomotives, 8268 freight cars, 26 passenger cars and other equipment, at a cost of $15,439,203. The locomotives perchased were the highest power engines for both passenger and freight service, among the latter type being included ten Mallets for service on the mountain divisions.

The charges on account of additions and betterments during the year aggregated $14,092,875.

Annual Inspection.

The annual inspection of the T. & O. C. R. R. took place the latter part of last week. The special inspection train with the officials on board arrived at Granville shortly after noon Friday. The officials inspected the depot and yards and then left for southern points.

Liable for Full Value.

A trunk that is being moved by an express or transportation company is not baggage and such company receiving and losing it is liable for its full value, according to a recent decision of the New York court of appeals. The action was against the New York Transportation Co., which contended it was liable only for $100. A judgment for $12,000 was rendered.

Erie conductors, some of whom have not complied with the company's rules, have been called to task for not regularly posting their watches by the company's jeweler.

Mrs. Henry Roe and daughter, Miss Belle, of near Zanesville, have been visiting in Newark for a few days, the guests of Mr. and Mrs. George Bonham.

Mrs. Bernard Wingerter and children are visiting relatives in Zanesville.

J. F. Rannels of Zanesville made a short visit with Newark friends the latter part of last week.

Mrs. Fred Barton and daughter of Lexington, O., who have been visiting relatives and friends here for a few days, have returned home.

Mrs. Ida McDonald, who has been visiting her brother, James H. Ferguson, at his home in Marion, Ind., for the past few days, has returned home.

Dr. A. A. Thomen, Specialist

Who has been visiting Newark for some years will make his regular monthly visit, Nov. 1, Wednesday, at Warden Hotel. A free consultation and examination will be given to all. Do not neglect this opportunity to consult this eminent specialist. It will be of the greatest value to you.

CELEBRATE 60th ANNIVERSARY OF THEIR WEDDING

Mr. and Mrs. Charles T. Chapin Entertain Number of Friends at a Sumptuous Dinner.

Granville, Oct. 30.—In this age of fast living it is considered remarkable to live to celebrate one's golden wedding, but when a married couple journeys through life together for a period of sixty years, and celebrates the event with all the enthusiasm of persons many years younger, it is considered wonderful.

Granville township, however, boasts of such a couple in the persons of Mr. and Mrs. Charles T. Chapin, honored and highly esteemed people, who reside in the old Chapin homestead, just outside the village limits, on the Granville and Mt. Vernon road, and who, on Saturday celebrated the sixtieth anniversary of their marriage by giving a dinner to a number of their special friends.

The aged couple have been looking forward to the event with pleasurable anticipation for some time, and so when the assemblage of friends, numbering twenty-one in all, gathered at the historical Hotel Buxton, they found the rooms decorated most beautifully in honor of the occasion, the dining table being especially beautiful.

The splendid dinner that had been prepared under the supervision of Mrs. Minnie Buxton Kerr, was bounteous and delicious.

Following are the names of those who partook of the hospitality of Mr. and Mrs. Chapin, together with their ages:

Mr. and Mrs. C. T. Chapin, both aged 81 years.

Miss Lydia J. Green, who acted as bridesmaid at the original wedding, 81 years.

Mrs. M. R. Thorne, a sister of Mrs. Chapin, who was also present at the original wedding.

J. L. Wyly and wife, aged respectively 71 and 69; Mrs. Helen A. Rose, 77; J. E. Malone, 79; Mrs. J. E. Malone, 70; Dr. C. J. Baldwin, 70; Mrs. C. J. Baldwin, 67; T. A. Jones, 66; Mrs. T. A. Jones, 52; Mrs. Henry Hobart, 73; Mrs. Emma Little, 81; Mrs. Helen Palmerton, 69; Deacon D. M. Shenardson, 87; Moses Goodrich, 75; E. F. Hobart, 65; Helen R. Hobart, 63; the Misses Virginia A. Thorne and Rose Thorne Jones.

At the conclusion of the dinner a number of after dinner speeches were made by Dr. C. J. Baldwin, Mr. Chapin, Mr. Wyly and others, and most enjoyable social hour was spent by the company.

One of the most remarkable things about the dinner was the fact that two persons who attended the original wedding were enabled to be present in the person of Miss Lydia J. Green, who acted as bridesmaid, and Mrs. M. R Thorne, a sister of the bride.

Charles T. Chapin was born in Springfield, Mass., December 20, 1823 His father, Curtis S. Chapin, traced his ancestry back to Samuel Chapin, who was the founder of the Chapin family in America, coming to the new world from England in 1640. Charles T. Chapin, the subject of this sketch, is a representative in the seventh generation of the descendants of Deacon Samuel Chapin, one of the founders of Springfield, Mass., where has been erected a celebrated statue to his memory.

Mr. Chapin spent the first sixteen years of his life as a pupil in the schools of Springfield, Mass., and through the periods of vacation, from the age of ten years, was employed on a farm. In 1841 he want to Akron, O., where for four years he served an apprenticeship in a carriage shop. He finally determined to go to Granville and traveled to Newark on a canal boat, arriving in Newark at midnight and journeying by foot to Granville, arriving at his destination at daylight. Here he opened a carriage shop on the college grounds, attended college and met the expenses of his college course through his own labors. He graduated in 1851, having completed the classical course, at which time the Bachelor of Arts degree was conferred on him. Soon after graduation Mr. Chapin was married in 1851 to Miss Emeline Rose, who was born April 24, 1830, and is a daughter of William Rose, who was the first male child born in the Granville colony, the date of his birth being October 23, 1806. The ceremony took place at the home of the bride in Granville, and was performed by the Rev. Silas Bailey, who at that time was president of the old Granville College. The bride's father spent his entire life on the home farm, near Granville, and was a son of Levi Rose, one of the colony who came to Licking county from Granville, Mass., arriving here in 1805. Levi Rose was a captain in General Hull's army at the time Hull surrendered to the British at Detroit, Michigan.

One of the pleasurable things in connection with the anniversary dinner was the reading by Mr. Chapin of a beautiful poem, composed by himself.

After Mr. Chapin's marriage he and his wife went west where both engaged in teaching in Iowa and Kansas, and for four years served as county superintendent of schools of Anderson county, Kansas, and for a time was engaged in the grocery and dry goods business during the period of the civil war, and was in the Price raid. Afterward he engaged in merchandizing in the Indian Territory for two years. In 1881 he returned to Licking county and established his home on his present farm, which has been in possession of the family since 1812. He now rents his land while he is living retired.

Fraternally Mr. Chapin has for many years been connected with the Masons. His life has ever been actuated by high and honorable principles. He has been a member of the Baptist church for nearly seventy years, and Mrs. Chapin for over sixty years, and his life has at all times been honorable and upright. He enjoys to the fullest degree the good will and trust of those with whom he has associated through a long life of activity and usefulness.

WILL ATTEMPT TO SAVE GILMORE FROM THE CHAIR

Zanesville, Oct. 30.—Louis Gilmore, colored, the slayer of Wesley Smith, who is in jail charged with murder in the first degree, was arraigned Saturday and through his attorney, Charles Lemert, pleaded not guilty. Gilmore's trial was set for Nov. 21. The trial will probably occupy the attention of the court for four days.

It is stated that friends of Gilmore will make a desperate attempt to save him from the electric chair, and that Mr. Lemert will be aided in his defense by one of the best attorneys in the state.

It is always easier to float a rumor than to sink one

Madam—

Here is one of the cows which supplies milk to your neighbors—the people who use Van Camp's.

This cow won the Van Camp cup, which we offered to encourage the breeding of high-grade cows. Milk from such cows, fed in America's best dairying sections, will cost you less than any milk you get from mongrel cows.

And it comes to you pasteurized—free from germs. It is the finest milk which this country produces—the equal of any Swiss milk.

Thick as Cream

Right at the dairy, in a moderate heat, we evaporate two-thirds of the water. This is done in a copper vacuum, in the cleanest sort of way.

We add nothing whatever to the milk. We take out nothing but water. Use it as it comes to you and you have thick cream—28 per cent solids, 8 per cent butter fat. Put back the water and you have fresh, rich milk, just as it came from the cow, save for the sterilization.

Rich Milk Dishes

Van Camp's Milk, used in cooking, produces superlative dishes. The flavor is such as you never get in any milkman's milk. It is the flavor of whole, rich milk.

Milkman's milk separates. Milk dipped from a can is never whole-milk. By the time it gets to your cooking it is rarely more than a half-milk. So many people never know what rich milk dishes whole-milk makes. You will know when you use Van Camp's.

Utterly Germless

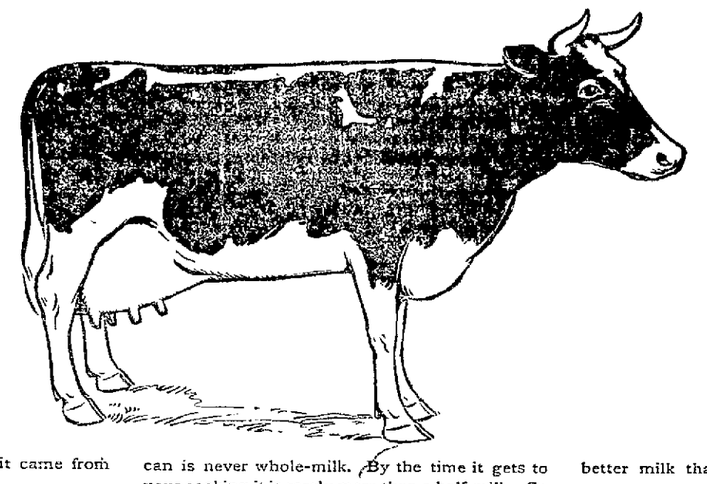
This milk is pasteurized, as all milk should be. There's not a germ of any kind in it. Think what it means for all table uses to have milk free from germs.

You can buy, if you wish, a month's supply at a time. Then you have milk and cream for any purpose—all you want at any time. You have none left over—none to waste—for the opened can keeps till you use it up.

And the milk, remember, is the finest milk that high-bred cows produce. It is always the same.

Milk Fresh From These Cup-Winning Cows

Costs Less Than Your Milkman's Milk



Milk Bills Cut in Two

The curious fact is that this ideal milk costs less than milkman's milk. We save you the cost of the daily delivery, which means about 4 cents per quart. And we save you all the waste. The use of Van Camp's, in most homes, cuts milk bills right in two.

We milk 30,000 cows daily to supply folks who want this milk. And no people in the world get better milk than they get every day.

The 16-ox. can—a full pint of Van Camp's—costs 10 cents. The 6-oz. can costs 5 cents. That's with two-thirds of the water evaporated. Your grocer gets it direct from our nearest dairy.

JOYFUL TIDINGS CAUSED DEATH OF ZANESVILLE VET

Zanesville, Oct. 30.—Elation at receiving notification that his request for a pension was granted, was too much for Thomas Prosser, aged 69 years, a resident of Zanesville, and the aged man, becoming excited over the good news, dropped dead from heart failure. Mr. Prosser, who is a civil war veteran, had made application to the pension department asking for an increase. Upon his return from work Friday evening he was in the best of health.

During the evening meal he was much elated over his good fortune and was somewhat excited. An hour later he walked out on the porch, staggered, and then fell to the floor, striking his head upon the porch rail. When his son, George Prosser, reached his father's side he was dead.

Overcapitalization, Restraint of Trade and Monopoly Alleged.

Say Roosevelt Was Deceived In Tennessee Coal and Iron Deal.

THE suit of the government against the United States Steel corporation, commonly known as the steel trust, seeks not only to dissolve that concern, but also its subsidiary companies. The government's special counsel is Jacob M. Dickinson, former secretary of war One of the most scathing arraignments of the trust concerns the absorption of the Tennessee Coal and Iron company. The allegation is that the Steel corporation deceived President Roosevelt into giving his assent to the deal

That Wall street believed Uncle Sam meant business was indicated by the marked slump of steel trust stocks the moment the news became known Yet the utterances of President Taft and Attorney General Wickersham had long foreshadowed such action.

templating the dissolution or disintegration of the corporation, either voluntarily or at the demand of the government."

The government's only answer to this was to institute suit It is practically certain that the legal struggle will be the greatest in the history of trust prosecutions.

Fight Will Be Decisive.

The steel trust has the ablest lawyers that money can hire and is in a position practically to bring the whole world of high finance to its support. This battle will therefore be decisive.

The suit was filed in the circuit court at Trenton, N. J., by Assistant Attorney General John B. Vreeland of the New Jersey district, acting under the immediate direction of Attorney General Wickersham.

The individuals and corporations named in the petition are:

What the Government Seeks.

After proceeding at great length to give the grounds on which it bases its numerous allegations of violations of the anti-trust law by the Steel corporation the petition concludes with the government prayer for relief, which is in ten counts, in substance as follows:

In consideration whereof and inasmuch as adequate remedy in the premises can only be obtained in a court of equity the United States of America prays your honors

First.—To order, adjudge and decree that the combinations and conspiracies and monopolizations of trade and commerce hereinbefore described are unlawful and that all acts done or to be done to carry out the same or any part thereof are in violation of the act of congress of July 2, 1890, entitled "An Act to Protect Trade and Commerce Against Unlawful Restraints and Monopolies."

Second.—That the defendants be perpetually enjoined from doing any act in pursuance of or for the purpose of carrying out the same.

Third.—That the United States Steel corporation, in and of itself, as well as each and all of the elements composing it, be decreed to be illegal and in restraint of trade and an attempt to monopolize and a monopolization within the first and second sections of said act of congress and that it be dissolved

Fourth.—That each and all of the said constituent or subordinate companies be declared to be illegal, in restraint of trade and an attempt to monopolize and a monopolization within the first and second sections of said act and that each be dissolved

Fifth.—That the holding of stock by any one of the defendant corporations in another of the defendant corporations under the circumstances shown be declared illegal and that each of them be enjoined from continuing to hold or own such shares and from exercising any right in connection therewith.

Sixth.—That the several defendant corporations shown to be constituents or subsidiaries of the United States Steel corporation be enjoined and prohibited from declaring or paying any dividends to the said United States Steel corporation or to any person or corporation for its use.

Seventh.—That it be decreed that the several individual defendants combined each with other persons and corporations to restrain trade and commerce and to attempt to monopolize and that each of them be enjoined from continuing to carry out the purpose of any of the above described combinations and conspiracies and attempts to restrain commerce and trade or to monopolize any part of commerce and trade among the states and with foreign nations

Eighth.—That such orders and decrees be made in respect of the stock issued under the several combinations as shall be in accordance with equity and good conscience and that such disposition be made of the various properties as shall effectuate the purposes of the said anti-trust act.

Ninth.—That the lease entered into by the Great Northern interests and the Great Western Mining company be decreed to be illegal, in restraint of trade and commerce, an attempt to monopolize and a monopolization within the first and second sections of said act and that the same be now canceled.

Tenth.—The United States also prays for such other and further relief as the nature of the case may require and the court may deem proper in the premises.

The Trust's Side.

The steel officials generally have maintained silence concerning the government's charges, but Judge Gary gave out a statement denying everything. He said, "If any harm results it will fall upon the stockholders and employees." He believed the evidence would prove that the steel corporation "had no intention of creating a monopoly or restraining trade;" that it has had no monopoly and has not restrained trade; that the conduct of its affairs will prove it has not violated the Sherman law; that the existence of the steel trust has been of benefit to its employees, customers, competitors and the general public and that no misrepresentation was made to President Roosevelt concerning the Tennessee Coal and Iron affair.

J. PIERPONT MORGAN, WHO ORGANIZED THE STEEL TRUST.

Morgan's Defense.

Mr. Morgan's statement was also signed by Judge E. H. Gary, chairman of the corporation. In part it was as follows:

"No negotiations whatsoever have taken place between the Steel corporation and the department of justice looking to the dissolution or disintegration of the corporation * * * In all its operations the company has scrupulously observed the law * * * The directors are advised by its counsel that its existence is not in violation of the Sherman act as interpreted in the recent supreme court decision.

"In view of this record and this advice the directors feel that their duty to their stockholders and the public requires that they should set at rest all rumors to the effect that they are contemplating the dissolution or disintegration of the corporation, either voluntarily or at the demand of the government."

CAPITALIZATION AND REAL VALUE OF STEEL TRUST.

One of the grounds on which the government made its attack on the corporation was overcapitalization. The following figures indicate the amount of water in the stocks:

CAPITALIZATION AT ORGANIZATION.

Total of shares issued (preferred)	$510,000,000
Total of shares issued (common)	508,000,000
Corporation bonds	303,000,000
Underlying and miscellaneous obligations	81,000,000
Total	$1,402,000,000

VALUATION BY HERBERT KNOX SMITH, COMMISSIONER OF CORPORATIONS, OF PLANTS AND PROPERTY AT ORGANIZATION.

Issued to underwriting syndicates and promoters stock of a par value of	$150,000,000
Manufacturing properties, including blast furnaces	250,000,000
Transportation properties	91,500,000
Coal and coke properties	80,000,000
Natural gas and limestone properties	24,000,000
Current assets	136,500,000
Ore properties	100,000,000
Total	$632,000,000

Chairman Stanley of the house investigating committee last July told the World that $250,000,000 to $260,000,000 represented a liberal estimate of the value of the properties of the constituent companies at organization.

Average rate of profit on $682,000,000 investment, April 1, 1901, to Dec. 31, 1910, 12 per cent.

Total valuation tangible property, Dec. 31, 1910	$1,187,000,000
Total outstanding securities, Dec. 31, 1910	1,468,000,000

DICKINSON AND STETSON.

These Two Will Be Pitted Against Each Other In Steel Battle.

Jacob McGavock Dickinson, who has been chosen to conduct the case for the government, was President Taft's first secretary of war and resigned in May this year to resume the practice of law. He was born in Mississippi in 1851 and studied in this country and Germany. He served by special commission on the supreme bench of Tennessee, was assistant attorney general of the United States in 1895-97, counsel before the Alaskan boundary tribunal, federal solicitor in 1899-1901 and general counsel of the Illinois Central.

JACOB M'GAVOCK DICKINSON, SPECIAL COUNSEL OF THE GOVERNMENT.

While he was in the cabinet Mr. Dickinson was regarded as one of the strongest of the legal advisers of the president. He was retained by Attorney General Wickersham two months ago. He prepared the petition filed in the circuit court in the steel trust case. It is based upon evidence obtained by the department of justice in the investigation of the Steel corporation which it has had under way for a long time, together with material brought out by the select committee of the house which has a special investigation of the Steel corporation under way.

Whether Mr. Wickersham intends to take an active part in the prosecution of this case or not remains to be seen. There was a tendency in Washington to assume that the employment of Mr. Dickinson meant that the ex-secretary of war would play the chief part in handling the case before the courts.

E. H. GARY, CHAIRMAN OF BOARD OF DIRECTORS OF THE STEEL TRUST.

Francis Lynde Stetson, the chief counsel of the United States Steel corporation, is one of the ablest lawyers at the New York bar. He was born in New York state in 1846, was educated at Williams college and was admitted to the bar at the age of twenty-three. He has been counsel of the Southern Railroad company, president of the Northern Pacific, director of the Erie, the Susquehanna, the Great Southern and other railways and of the United States Express company and general counsel of the United States Rubber company, the Mercantile Marine company and of the Northern Pacific railway.

FRANCIS LYNDE STETSON, STEEL TRUST'S CHIEF COUNSEL.

RUFUS PUTNAM BEING URGED FOR THE APPOINTMENT

Friends of Rufus Putnam of Newark, throughout the state, are urging his appointment for the position of commissioner of soldiers' claims, made vacant by the death of Colonel Taylor. Mr. Putnam was a candidate for the position of superintendent of the Soldiers' and Sailors' Orphans' Home at Xenia and had the endorsement of a large number of Grand Army posts of the state for the position, but the appointment fell to another, and his friends now think that he is entitled to this position, which he is eminently qualified to fill most efficiently. He is a member of one of the most distinguished families of the revolutionary war, being a great-grandson of Israel Putnam of revolutionary war fame. He also served in the civil war from 1861 to its close, in Co. H, 31st Volunteer Infantry, and is a member of Lemert Post, No. 71, G. A. R., of Newark, of which he is past post commander. He is a staunch Democrat of life-long standing. For a number of years he conducted the Ross County Register, a weekly, and the Chillicothe News, both Democratic papers, in a Republican stronghold. Mr. Putnam, with his wife, is now visiting his son, John R. Putnam, in Oakland, Cal. Mr. Putnam was born in Springfield 66 years ago.

IS YOUR HAIR STREAKED WITH GRAY AND FADED

A Simple Remedy Brings Back the Natural Color—Dandruff Quickly Removed.

How often one hears the expression, "She is gray and beginning to look old." It is true that gray hair usually denotes age and is always associated with age. You never hear one referred to as having gray hair and looking young.

The hair is generally the index of age. If your hair is gray you can't blame your friends for referring to you as looking old. You can't retain a youthful appearance if you allow your hair to grow gray. Many persons of middle age jeopardize their future simply by allowing the gray hair to become manifest. If your hair has become faded or gray, try Wyeth's Sage and Sulphur Hair Remedy, a preparation which a chemist by the name of Wyeth devised a few years ago. It is simple, inexpensive and practical, and will banish the gray hairs in a few days. It is also guaranteed to remove dandruff and promote the growth of the hair.

It is a pleasant dressing for the hair, and after using it a few days, itching and dryness of the scalp entirely disappear.

Don't neglect your hair. Start using Wyeth's Sage and Sulphur today, and you will be surprised at the quick results.

This preparation is offered to the public at fifty cents a bottle and is sold and recommended by all druggists.

THOMAS TAYLOR FORMER NEWARKITE DEAD AT FRESNO

Thomas Taylor, a former general foreman of the B. & O. shops in this city, died at his home in Fresno, Cal., Saturday night.

During his residence in this city, Mr. Taylor made scores of friends who will be pained to learn of his death. He was one of the best known railway men in the state and left Newark to accept a position with the same coompany at Chicago Junction, leaving the latter place 12 years ago, and at the time of his death was master mechanic of the Southern Pacific shops at Fresno. He was a son-in-law of former Superintendent of Motive Power of the B. & O. W. H. Harrison, and a brother-in-law of W. H. Harrison. Taylor Lodge, Newark Brotherhood of Locomotive Firemen, was named for Mr. Taylor.

DEATH EXPECTED AT ANY MOMENT

Coshocton, Oct. 30.—John Powelson, a young man of the Wills Creek vicinity, who was adjudged insane before Probate Judge Ashman last week and taken to the Massillon state hospital, has neither eaten nor slept since being confined in the institution, and according to word received from that institution his death is momentarily expected.

Going wildly about in the ward in which he is confined Powelson sings and preaches without rest, sleep or nourishment day and night, that he is George Washington and the Saviour.

An examination made Friday by physicians of the institution with an X-ray showed that a clot of blood was pressing against his brain.

THE "ENEMY'S COUNTRY" MOVES

A Mythical Region That Is Constantly Shifting.

IS IT STILL IN NEW YORK?

The Metropolis Hostile to Both Taft and Wilson—Theoretical and Practical Farmers—How to See a Bear to Best Advantage—A National Highway Across the Continent.

By ARTHUR W. DUNN.

Washington, Oct. 30.—[Special.]—Where is the "enemy's country?" It will take a great many doctors of politics to tell us just how to locate that undefined region which Mr. Bryan created in 1896. He called the east "the enemy's country" when he was about to enter that section on a speech making tour.

When President Taft set out on his record breaking "swing around the circle" it was said that he was going into the "enemy's country," the general opinion then being that the west was hostile to him. But it may be surmised from all reports that "little old New York" is rather a hostile region just now, and if the president were seeking the "enemy's country" he might find it on Manhattan Island.

Governor Wilson Also.

And if those men who are booming Governor Wilson in New Jersey will cross the Hudson river or, like the early Dutch settlers, go from Communipaw to Manhattan they will find an "enemy's country" for the governor. The fellow who tarries a few days in New York is convinced that the Republicans do not want Taft and the Democrats do not want Wilson.

"The first choice of the Democrats in New York is Governor Harmon," said a returned visitor, "but they will not vote for him on the first ballot or perhaps several ballots. New York will be for Harmon when it will do him the most good. Until then the delegation will vote for Governor Dix."

The Farmer Knows.

Professor W. J. Spillman, chief of the United States bureau of farm management, says that by hard knocks he has learned that American farmers frequently are in a position to tell a thing or two to the so called "book learnt" agriculturists, who, in the narrowness of their specialities, go out from experiment station laboratories to show the farmers how to farm.

"Very few things are 'discovered' in laboratories or on experimental farms," Professor Spillman declares, "which some farmer somewhere in the United States has not known and used for years. It therefore behooves the scientist who truly desires to help all the farmers of the country to go out among the progressive farmers of every state and mingle intimately with them, gathering here and there from their experiences information which, published, would greatly benefit the whole farming community."

Where a Grizzly Looks Big.

"It is remarkable how enormous a bear will look 'in the free state,'" mused Dr. Joseph A. Holmes, chief of the United States bureau of mines. "I often have strolled through the National Zoological park on Sundays and stopped to admire the magnificent specimens of Alaska grizzly, wondering if such large animals were common in the territory. It seemed that they could hardly be. But an experience in Alaska this summer 'showed me.'

"One morning, feeling that I should relish some berries, I got some of the members of our party to walk with me a little distance from camp to get them. We had gathered quite a few when we saw at a little distance a she bear, also a-berrying, with her two cubs. Scenting us, the cubs, frightened, ran in diverse directions. The mother, alarmed, curled her lip and made for me in a way not conducive to my nervous composure. Not a tree was in sight. And that bear grew—my, how she did grow! Within 100 feet of me she suddenly changed her mind and turned away toward her cubs, much to my relief."

Cartoon Ineffective.

The fellow who attempts to cartoon Senator La Follette with a hat on falls down. The Wisconsin man's pompadour hair is too well known to be left out of any picture, especially a cartoon. Hair and whiskers are usually the cartoonists' long suit.

Dixon's Latch String Out.

The little labels on the doors of senators in the office building are so small and the letters so indistinct that they can scarcely be deciphered. But Senator Dixon has done a real good thing for those seeking him and other senators might well follow his example. Upon the door of the Montana senator is a large card with bold letters: "Room 429—Senator Dixon—Walk In."

Only $125,000,000.

Some mathematician has figured out that it will only cost $125,000,000 to build a highway from the Atlantic to the Pacific. The figures don't have any significance to those who do not know or care what three or more additional ciphers mean after the thousand point is reached, but the question is, Who wants a national highway across the continent, more especially through the long reaches of dry plains and mountains?

Manoline Heals Scaley, Irritated, Rough Skin

There's a method of treatment that is sure and effective in doing away with these troubles, and that's by careful bathing in luke warm water, and then before using the drying towel, apply MANOLINE. It's sure to help, relieves the itch and makes the skin smooth, soft and firm.

GOD PREPARING FOR THE HARVEST

The Divine Promise About to Be Fulfilled.

THE NEW DISPENSATION.

Pastor Russell Says the "Peace and Safety" of the Unbelievers Is a Delusion—Progressive Steps of the Divine Plan, as Outlined In the Bible, Explained—The Elect, Under the Headship of Jesus, Will Rule the World For a Thousand Years.

PASTOR RUSSELL

Glasgow, Scotland, Oct. 29.—Pastor Russell preached twice here today to large audiences. We report one of his discourses from the text, "Of the times and seasons, brethren, ye have no need that I write unto you, for yourselves know perfectly that the day of the Lord so cometh as a thief in the night; for when they shall say, Peace and safety, then sudden destruction cometh upon them, as travail upon a woman with child, and they shall not escape. But ye, brethren, are not in darkness that that day should overtake you as a thief; ye are children of the light."—I Thessalonians v, 1-5.

The common tendency of the human mind is expressed by St. Peter, who prophesies of the present time that the worldly will be saying, "Where is the promise of His presence? * * * All things continue as they were from the foundation of the world." Ignorance of God's Plan is to be expected of the world, but the true people of God have the promise of His special instruction so that they need not be in darkness respecting the Divine Program.

Our world for six thousand years has been the battle field between the forces of light and darkness, truth and error, righteousness and sin; the Prince of Darkness, otherwise styled the "Prince of this world," has led his forces in person, and has controlled the masses and is still controlling them. The Prince of Light is represented in a feeble way by ambassadors who are specially cautioned by Him that they must not use carnal weapons nor carnal methods, but must in meekness correct those who oppose them. They must be subject to "the powers that be" to the extent that their consciences will permit, and so far as possible live peaceably with all men.

This experience of subjection to the powers of evil has been a hard lesson, difficult to learn, a trial of faith as well as of endurance, the value of which has been difficult sometimes to appreciate. But these must walk by faith and not by sight if they would please the Captain of their salvation. For centuries the prayer has gone up to God from their hearts, "How long, O Lord!" Reason assures them that it cannot be the Divine purpose to forever permit the victory of sin and death under the Prince of Darkness.

Plowing, Sowing, Reaping.

God represents Himself as a great Husbandman. Each Age is a "season" and bears its own crop. Each Age has its own time for the plowing of the field, the sowing of the good seed, and the harvest work. As Bible students we have already noted the work accomplished in the Age which ended with the flood, the different work accomplished during the Patriarchal Age, and the still different work accomplished during the Jewish Age, which lasted from the death of Jacob, and particularly from the giving of the Law, down to the death of Jesus.

Our Lord's ministry of three and a half years was a harvest time to the Jewish people in the close of their Age of favor or "day of visitation." He said to His disciples, "I send you forth to reap that whereon ye bestowed no labor: other men labored and ye are entered into their labors." (John iv, 38.) The plowing and sowing connected with the Jewish Dispensation was in the far past. The Egyptian bondage served to do a plowing work, as also Israel's escape from that bondage and the forty years of wandering in the wilderness before they reached Canaan. The giving of the Law and the establishment of them as a people, the lessons of their sacrifices, and the exhortation of their Prophets, all constituted a seed-sowing, harrowing and cultivating experience. In the end of their Age Jesus gathered the ripe fruitage of that experience—those sanctified thereby and developed in character and obedience to God.

The crop gathered by our Lord and the Apostles in the Jewish harvest numbered thousands. These were gathered out of Judaism and from under the Law Covenant into Christianity—gathered under a Covenant applying only to the "Church which is the Body of Christ." This Covenant, under which they became associated with Messiah, reads, "Gather together My saints (holy ones) unto Me," saith the Lord, "those who have made a Covenant with Me by sacrifice." (Psalm l, 5.) All coming thus into relationship to Jehovah as members of the Body of Messiah came by way of the cross—through a recognition of their own imperfection, and of Jesus and His sacrifice as the satisfaction for their sins, a covering for their blemishes, by which alone their sacrifices were rendered "holy and acceptable to God."—Romans xii, 1.

Sowing Follows Reaping.

The reaping work of the Jewish Age merged into the sowing work of the Gospel Age as the invitation to become joint-sacrificers with Jesus was extended to those having hearing ears amongst nations aside from the Jews. For eighteen centuries this sowing work, with "harrowing" experiences and various cultivations, has been in progress. Now in turn we have arrived at the harvest of this Gospel Age—the reaping time, the time of gathering into the garner—beyond the veil—by the power of the First Resurrection.

"None of the wicked shall understand, but the wise shall understand" (Daniel xii, 10), is the Lord's declaration. Our text declares that "Ye, brethren, are not in darkness" respecting this time. This implies, either that the brethren are very few, or that a considerable number of them have not yet become sufficiently awake to a discernment of the times and seasons in which we are living. Many of the brethren and many of the world and many of the "wicked" do realize that we are living in strange times and under peculiar conditions. These try to persuade themselves, however, that what we see today is merely a recurrence of what has repeated itself time and again during the past centuries. Thus these lull themselves, saying, "Peace and safety!"

This attitude is what the Scriptures foretold, "When *they* shall say peace and safety, then sudden destruction cometh upon *them*." It is only "ye, brethren," who are privileged to have the clearer light respecting present and future conditions. We know that we are in the Harvest time of this Age—the reckoning time—the testing time—the time when the "wheat" is to be gathered into the heavenly "garner"—the time when the field is to be cleared of all "tares" in a fiery trouble—the time when the plowshare of trouble will be run through the world of mankind to prepare the whole world for the New Dispensation just about to begin.

The Plowman Overtakes the Reaper.

Illustrating the Divine methods and the rapid following of events in the Divine Program, the Lord through the Prophet tells us that "the plowman will overtake the reaper." (Amos ix, 13.) So accurately timed is every feature of the Divine Plan that part fits to part and work to work closely. The Harvest of the present time is the gathering of the fruitage of this Gospel Age—the gathering of the Church of the First-born, whose names are written in heaven"—those who have made a Covenant with Jehovah by sacrifice.

The Head of the saintly Messiah, developed and glorified eighteen centuries ago, is Jesus. The members of the Body of this Messiah have been gathered from every nation, first from the Jews and then from all nations. God's call and selection of saintly sacrificers in this Gospel Age ignores all sectarian, all denominational, all national lines—"The Lord knoweth them that are His." The winds of violence, "the powers of the air," which will shortly be loosed, and which will produce the terrific "storm," are being held back until the sealing of God's servants in their foreheads shall have been accomplished.

This sealing in the forehead implies an intellectual appreciation of heavenly things, and is intimately associated with the harvest work—the sealed are the ripe wheat being gathered for the heavenly garner. As soon as the sealing work shall have been accomplished the winds of strife and trouble will be let loose according to the Master's declaration, and the result will be a "time of trouble such as never was since there was a nation"—no, nor ever shall be the like again. The awful lessons which will then be learned by humanity will be sufficient for all time. The strife, the hatred, the malignity, the anarchy of that day of trouble are depicted in various places in the Word of God.

The trouble time impending is indeed declared to be a time of Divine wrath, and we must not lose sight of that feature of it. Divine Justice has indignation against inequity and selfishness in general, for selfishness is but another name for sin. All sin is selfish, and all selfishness is sin. The captains of industry, the captains of education, and captains of wealth have today greater opportunities and therefore greater responsibilities than the kings of the earth for their dealings with their fellowmen.

Similarly, there are leaders of the people, presidents and secretaries of unions, etc., who are also captains, and who also have great responsibility. All perceive that the world of humanity is rapidly nearing a crisis. The almost miraculous opening of the eyes of understanding which God has recently granted has brought to the world mechanical inventions and chemical processes which are making the world rich with amazing rapidity.

Although these blessings are in considerable measure reaching the masses of mankind and uplifting all to a higher plane of comfort, nevertheless general education has opened the eyes of human understanding correspondingly. "The common people" are looking with amazement at the luxury of the rich as the barbarians of old looked upon the much lesser splendors of Rome. They are covetous, they are hungry for what they term their "share" of the bounties being dispensed by Providence with so lavish a hand.

Even if the vast increase of wealth through machinery, chemistry, etc., were to be evenly distributed we doubt if it would satisfy these new-born minds.

Two Possible Solutions.

There seem to be two possible solutions: (1) To convert all of the wealthy into saints, whose pleasure it would be to administer the flood of wealth now rolling in upon them for the general blessing of mankind, along the most benevolent lines imaginable, or (2) To convert into saints the masses of mankind and to so imbue them with heavenly hopes and prospects that they would not particularly care for earthly good things nor crave them, but rather rejoice to be "the poor of this world, rich in faith, heirs of the heavenly Kingdom."

We confess that neither solution seems to be practicable. We cannot believe that either can be accomplished; hence we must believe what the Bible teaches, that an awful conflict is about to be precipitated between these two classes, because neither one nor the other can be fully converted to the Lord's way. How glad we are that the Bible shows that the culmination of the conflict will bring everlasting peace—a just, loving, equitable and satisfactory adjustment of earth's affairs, under Messiah's glorious reign of a thousand years.

The Divine Arrangement.

Someone may ask, Would not these same difficulties beset any new government which Messiah or others might institute? Will not the element of selfishness forever persist in the human heart, and will not this imply that to all eternity there will be a strife of selfish interests? We answer, No. The Divine Plan solves the problem perfectly. Jesus has demonstrated His unselfishness as respects earthly things. His laying down of His life not only proved His loyalty to righteousness and to the Father's will, but proved also His unselfishness—His love—"greater love hath no man than this, that a man should lay down his life for his friends." (John xv, 13.)

This Friend of humanity is to be the great King of the world in the New Dispensation, and His associates in the Kingdom, the Bride class, are to be such only as have His spirit and disposition of obedience to the Father's will—self-sacrifice and love for fellowman—unselfish love. Under present conditions these may not always be known, nor their true character and unselfishness be discerned, because they have the treasure in "earthen vessels," which do not always fully represent their true benevolence of heart.

The Divine provision is that such of these as shall demonstrate their unselfishness of heart and loyalty to the Lord shall be given new bodies in the resurrection—"sown in weakness, they will be raised in power; sown in dishonor, raised in glory; sown an animal body," with Adamic weaknesses and fleshly imperfections, they will be "raised spirit bodies"—perfect, complete, lacking nothing—I Cor. xv, 42-44.

These, in association with their Redeemer, will constitute the Kingdom class which is to rule the world for a thousand years under the Headship of Jesus. Surely, we can trust these, we can have confidence in them. The fact that God has selected them, and that He is pleased to give over to them the rulership of the world for a thousand years testifies beyond peradventure their worthiness and capability.

That Government will not be a republic, but a monarchy, a theocracy, a Divine Kingdom. Christ and His Bride will be the King and Queen of the New Dispensation, supplanting Satan and the fallen angels, who for centuries have been in control. The Kingdom of God will be as invisible as the kingdom of darkness has been. It will operate through human agencies, as does the other. But even its human agents have been provided. The Scriptures inform us that the worthy ones of the Jewish Dispensation and before, will be the Princes in all the earth who will represent Messiah's Kingdom amongst men. Not only so, but they will be perfect men, made so by participation in the "resurrection of life." How grand the prospect!

The time of trouble, although it will be awful, will be short, as typed in the terrible trouble which came upon the Jewish nation following the harvest work of their Age. Then will come the leveling process, which in the Divine order will prove to be a blessing to everybody. In other words, the socialists and anarchists are not so far from a correct conception of what must ultimately prevail, but they are far astray respecting the methods by which it shall be obtained. Their attempt to grasp the rudder of the world's affairs shows an awful lack of appreciation of the mighty influences with which they seek to contend. Their efforts will merely precipitate upon themselves and upon others the terrible trouble which the Scriptures foretell.

God's people are distinctly warned that they must keep hands off, must not interfere with the powers that be—their reliance must be upon the Lord and not in the use of carnal weapons. St. James, writing on this subject, declares the coming trouble and tells that it will be specially severe upon the rich: "Go to now, ye rich men; weep and howl for your miseries that shall come upon you." (James v, 1.) No doubt the troubles will be equally upon the poor; but to them they will seem less severe since they have been accustomed to less. To God's people is the message, "Be patient, brethren, the coming of the Lord draweth nigh;" "Wait ye upon Me, saith the Lord." (Zephaniah iii, 8.) "Seek meekness, seek righteousness, it may be that ye shall be hid in the day of the Lord's anger." (Zephaniah ii, 3.)

expansion of the Catholic church within its limits.

"For years the Holy See has been definitely resolved to give another Cardinal to the great republic. Conjecture has been busy as to which archdiocese would be honored of those presided over by Archbishops Farley, Ireland, Quigley and O'Connell.

"Unable to appoint all four, the Pontiff chose New York, and Boston, the archbishop of each of these two archdioceses being distinguished for conspicuous services and loyalty to the Holy See, and each with a diocese containing about 1,000,000 of the best Catholics in the world.

"But Pius X. has not stopped here in his desire to honor the American church, as he has raised to the cardinalate Mgr. Falconio, who is a naturalized American citizen and glories in the fact.

Thus the United States will have four Cardinals, three governing dioceses and the fourth destined to be called to Rome to help the Pope in the central government of the church."

The Tribuna commenting on the announcement points out the preponderance of American Cardials as compared with Canada, which is still without a red hat, and with Latin America, with only one, Cardinal Cavalcanti, of Brazil.

Cardinal Vincenzo Vannutelli has expressed himself as delighted with the Pope's decision. Cardinal Vannutelli, after the Eucharistic Congress at Montreal in 1910, visited the United States, and on his return to Rome, made a eulogistic report to the Pope with reference to the condition of Catholicism in America and the extraordinary influence and prestige of the Archbishops there. He urged the necessity of giving the great republic an adequate representation in the sacred college.

Speaking of the coming appointments the Cardinal said that indeed he would have desired the appointment of even a greater number of American cardinals than three, in order to give representation to the West.

"But" he concluded, "this will be for another time."

Cardinal Martinelli, prefect of the congregation of rites since he left Washington, has suggested the advisability of creating American cardinals. He said today.

"The United States had to wait for some time for the honor, but finally the Pope has given it in a thorough manner."

To add solemnity to the honor conferred upon America, the Pope, instead of having the new cardinals come here for the consistory in November will send them the red biretta by special delegations, each composed of a Monsignor among the papal and private Chamberlains, accompanied by a noble guard.

The new cardinals later will come to Rome to receive the red hat from the hands of the Pope in a consistory to be held early in 1912.

The appointment of Mgr. Falconio will render the apostolic delegation at Washington vacant, and this already has resulted in much discussion regarding Mgr. Falconio's successor. Those mentioned as most likely to receive this appointment include Mgr. Stagni, apostolic delegate to Canada, who is well acquainted with the United States, where he resided for a time; Mgr. Agius, papal delegate in the Philippines, where he proved his sympathy for the United States in co-operation with the American officials, and Mgr. Aversa, Envoy Extra-ordinary to Cuba, who, through a long residence in Cuba and Porto Rico, has come into frequent contact with America and American people.

The list includes Mgr. Prior, formerly of Beda College for Anglo-American affairs, who is here now as judge of the Rome Tribunal; the Most Rev. Father Denis Schuler, formerly Minister-General of the Order of Friars, Minor, but lately appointed a titular archbishop, and finally Mgr. Kennedy, rector of the American college in Rome, against whom might militate the fact that he is an American.

OFFICIAL NOTIFICATION.

Washington, Oct. 30.—Mgr. Falconio, papal delegate to the United States, today received formal notice from Rome that he has been created a cardinal. This was the first official confirmation of the elevation of Falconio to the cardinalate. It is believed that notifications have also been sent to Archbishops Farley and O'Connell of their elevation.

REQUEST FOR MORE TROOPS

Rome, Oct. 30.—The situation of the Italian troops in Tripoli today is more serious, according to uncensored dispatches from that place today. An urgent request for re-enforcements has been granted. Other details are lacking.

200 REPORTED KILLED.

Constantinople, Oct. 30.—In a desperate attack upon the troops surrounding Tripoli Saturday the Turks drove the former into the city in great disorder, according to a dispatch to a local newspaper today. The message said that 300 Italians were killed and 700 wounded. The Italians are said to be penned in the city and in imminent danger of being completely wiped out.

MONEY BACK CURE FOR RHEUMATISM

No wonder Evans' Drug Store is having such a large sale on RHEUMA when it cures Rheumatism so quickly and they guarantee it.

It's simply wonderful how quickly it gets after any kind of Rheumatism and drives agony from the joints and muscles.

A. A. Bellows, East Orwell, Ohio, writes: "I have taken three bottles of RHEUMA and am cured of Rheumatism. I want two bottles for my cousin, who is very badly crippled with the disease."

No remedy on earth can compare with this new discovery, RHEUMA, for it acts on blood, kidneys, liver and bowels all at once and makes you feel better in a day.

A bottle of RHEUMA only costs 50 cents at EVANS' Drug Store, or by mail, charges prepaid, by Rheuma Co., Buffalo, N. Y.

STILL FIRE ALARM CALLS DEPARTMENT TO BAPTIST CHURCH

A still alarm Sunday morning called the two trucks of the Central Fire station to the Baptist church at Fifth and Granville street where wood smoke in the building caused a fire scare. An investigation by the firemen revealed the fact that several pieces of wood had been left on top of a furnace. When the fire in the furnace was started, this wood became charred and the smoke alarmed the people in the building. The department was notified by a member of the church who rode to the fire station on a bicycle.

UTICA

Mr Wright of the Newark Y. M. C. A., spent a hald day recently in coaching our football team. The result of the Granville game last Friday, however, did not show very accurate work on the part of the team.

The concert given Thursday evening by Prof. Shaw was well attended and was a success in every particular. Miss Irene Selby the assistant who played a piano solo, and Miss Nema Andrick deserve special mention. Prof Shaw is an artist with the violin.

Mr. and Mrs H. W. Emswiler of the Utica schools spent Saturday evening and Sunday with the former's father in Kirkersville. While out riding Saturday evening, their horse ran away, upsetting the rig and throwing out the occupants, bruising them slightly.

Several from here attended the dedication of the I. O. O. F. hall at St. Louisville, Thursday afternoon and evening. Mr. L. O. Coulson of this place was one of the principal speakers of the occasion. An elegant dinner and supper were served, the event closing with initiation, put on by the Newark team.

Saturday, November 11, has been selected as the day for the boys' conference. All high school boys are urged to be present to hear a popular address by Principal J. H Dickason of Wooster. This conference will be held at Newark, under the auspices of the Licking County Schoolmasters' club.

SPECIAL POLICE FOR HALLOWE'EN AT GRANVILLE

Mayor Jones will Not Tolerate Any Depredations or Destruction of Property—Village News.

Granville, Oct. 30.—Tomorrow evening is Hallowe'en, and Mayor Jones will take the precaution to have a number of special policemen scattered about the village, who will attempt to guard property and prevent its destruction by the celebration. It is a well known fact that in years gone by Granville boys have been a little too gay on Hallowe'en night. "The boys will, of course, be permitted to enjoy themselves, within proper bounds, on Hallowe'en night," said Mayor Jones to your reporter, "but they must not stretch their fun, or there will be a number of arrests and prosecutions for disorderly conduct."

The weather has been very changeable here of late, one day rain and warm and the next day sunshine and cooler, and as a result a good many are suffering with colds.

Every season of the year has its civic, as well as natural and individual characteristics. The most noticeable characteristic of the autumn season in towns as well supplied with beautiful trees as Granville, is the leaf fires that occur all over the town with the coming of Hallowe'en times. During the past week Granville has been in one continual haze of smoke caused by the numerous leaf fires. The multitude of leaves is said to be heavier this year than common. The danger of fires comes when they are built close by residences or on the pavements. Residents of Granville should take the interests of the city into consideration in this regard and burn their leaves where there is no damage likely to occur.

Mrs. George Futerer and two daughters, Misses Jane and Elizabeth, and Miss May Hulshizer visited friends in Columbus the latter part of the week.

The regular meeting of the Granville chapter, Daughters of the American Revolution, was held at the home of Mrs. L. A. Austin, Friday night last and transacted considerable business of importance. There are probably more descendants of the revolution in Granville than any other place in the county, and the old cemetery contains the remains of quite a number of men who fought in that war.

A number of farmers in the vicinity of Granville are reported to have lost valuable hogs on account of the cholera, but it is said that the disease is now about stamped out.

Miss Genevieve Mead of Cincinnati, has been enjoying a visit of a few days with Miss Esther Graney.

Mrs. Mary Obitts of Columbus has been visiting her mother, Mrs. Lewis Twining, for a few days.

A surprise was given Mrs. Margaret Williams at her home a few miles north of town, on Saturday, by her children, honoring her 65th birthday anniversary. The guests arrived about the noon hour, and a bounteous spread was enjoyed by all, about 25 being present. A good time was had by all.

AGRICULTURAL SOCIETY ELECTS FOUR DIRECTORS

The annual election of directors of the Licking County Agricultural Society was held Saturday. There were five candidates in the field. Samuel Walker of Hanover township, Wm. Courson of Bowling Green township, Fred H. Stevens of Franklin township, James J Hill of Monroe township and E. O. Mitchell of Hartford township. Four directors were to be elected and the fight was quite spirited. The first four candidates were up for re-election. When the ballots were counted Saturday evening the result was as follows:

Samuel Walker	141
William Courson	142
Fred H. Stevens	139
James J. Hill	159
E. O Mitchell	42

The board of directors now consists of William Courson, Samuel Walker, J. F. Lock, W. J. Toarp, H. H. Simmons, J. J. Hill, A. D. Seward, J. C. Morrison, Ben B. Jones, C. E. Rader, T. E. Adams and Fred H. Stevens.
